Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 50. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

NO WORD RECEIVED

From Dewey, but Long Does Not Fear For His Safety.

ADMIRAL SAMPSON'S FLEET

News of Its Movement Not Given Out.

But Its Destination Is Believed To Be Porto Rico—Russian Diplomat Says Reports of Troops Resist the Landing of Soldiers and Ammunition From the Leyden In Cuba—Indiana's Guard Being Examined by United States Army Surgeon at Camp Mount.

Washington, May 6.—Secretary Long has received no word from Commodore Dewey, but feels no apprehension over the lack of news, because in the first place reports cannot be expected with the cable from Manila cut and, furthermore, no fears are entertained as to Commodore Dewey's ability to maintain his position. There was no doubt, the secretary said, that Commodore Dewey's fleet had annihilated the Spanish fleet and with this much accomplished Dewey was master of the situation at Manila. It was suggested to Mr. Long that the shore batteries at Cavite and on the Corrigador islands might be a serious menace to the American fleet, but the secretary did not share this view, holding that the strength of the Olympia and other ships in Dewey's command was ample to make him master of Manila bay and its surroundings.

Preparations for a suitable convey for the supply ships was indicated yesterday by the choice of a commander and officers for the cruiser Charleston, now at Mare Island. It is recalled at the navy department in this connection that having received the surrender of Manila, the commodore would be able to secure any quantity of labor, and of such material as any city like Manila affords, for the repair of his ships. He also would be able to place his wounded in comfort in some of the Manila hospitals or other public buildings. It is always a desire of a prudent naval commander to get his wounded ashore at the earliest possible opportunity, as they stand better chances of recovery.

Sampson Ironclads. No news could be gleaned at the navy department relative to the movements of Admiral Sampson's ironclads but from the confident tone of the few officials who are acquainted with the policy of the department they are expected to hear very soon of news from his squadron almost as interesting and important as that received from the Philippines last Monday. A high officer of the administration yesterday almost demolished the theory that Admiral Sampson was going to succor the Oregon, now on her way from Brazil to join the North Atlantic squadron. He declared that the navy department was under no apprehension about the Oregon for the reason that it did not consider that the Spanish admiral of the Cape Verde squadron would be willing to risk a combat with the Oregon even at the great odds in his favor as, even if overwhelmed in the end, the Oregon certainly would destroy one of the Spanish ships, and possibly two, and the Spanish government could not afford to exchange pawns at this stage of the war. That left open as possible the points of operation for Sampson as either Porto Rico or some port on the Cuban coast, but just which theory is

The young man who starts in business life with a good athletic training back of him will be able to stand more than the man who has not had the same advantage. Nevertheless, if he overworks and neglects his health, he is likely to fall a victim to some fatal malady like his less fortunate brother.

There is only one safe road for a man to tread in the matter of health. That is the road of eternal vigilance. No man, no matter how strong he may be naturally, can with impunity neglect the little ills and indispositions of life. These little disorders are what make the big ones. When a man suffers from headaches and loss of appetite, feels drowsy and dull during waking hours, cannot sleep at night and is nervous and shaky at all times, he is in a dangerous condition. If he long neglects his condition he will find himself a very sick man. Dr. Pierce's Golden Medical Discovery is the best of all medicines for the many diseases that are caused by an impaired digestion and insufficient and improper nourishment. It creates a hearty, healthy appetite; it makes digestion and assimilation perfect; it invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and nerve tonic. It is the best of all medicines for nervous disorders and it cures 98 per cent. of all cases of consumption, if taken in its earlier stages, before the lungs are too far wasted. For chronic bronchitis, throat and nasal affections it is an unequalled remedy. An honest dealer will not suggest some inferior substitute.

Rev. C. M. Leonard, (P. O. Box 207, Quana, Hardeman Co., Texas, writes: "I write to say that during the late trouble between the States it became my duty as well as privilege to speak in the open air at night, which produced slight hemorrhages and loss of voice from which I had suffered more or less for a number of years, until that God-sent Golden Medical Discovery, given to the world by the inventive and scientific brain of Dr. J. C. Pierce, was introduced. My lungs began to give way, and now I feel that, with a judicious course of life I may live many years. I thank God for giving to the world a man who has done so much for suffering hu-

to be accepted is not even hinted at by the departmental officials.

Brazil Is Neutral.

Notice has come to the state department from Brazil that that government has declared neutrality. There is now no cause to regret such action on the part of Brazil, for, however beneficial the delay has been to the United States in getting its warships safely along the Brazilian coast, the issue of the proclamation just now is likely to be still more beneficial in closing Brazilian ports to the Spanish flying squadron, if it should be headed in that direction. It may be noted, however, that while the first reports were received with little credit, the advices coming to the navy department late yesterday, though not conclusive, inclined the officers to the belief that the Spanish flying squadron really has turned back from Cape Verde to consolidate with the home squadron at Cadiz.

Great pressure is being brought to bear upon the war department to secure appointments to second lieutenantcies authorized by the recently enacted Hull bill. The list of applicants include many bright young men, for the regulations require them to be under 30. Among them are former students at West Point, newspaper men and others with political influence back of them.

RUSSIA IS FRIENDLY.

Diplomat Depresses Statement to the Secretary Sent From London.

Washington, May 6.—A leading Russian diplomat says that the cable report from London stating that Emperor Nicholas of Russia was much disturbed as to the ultimate destiny of the Philippines, and that some sort of immediate intervention was probable, was entirely unwarranted and placed Russia in a misleading position before the people of this country. He says the sentiment throughout Russia, official and unofficial, is one of extreme cordiality toward the United States, and it shows there will be no change in the traditional friendship existing between the United States and Russia. The friendly feeling, he pointed out, was shown by the Russian newspapers which arrived in the mail to the Russian embassy only yesterday. They were published just after the declaration of war, and their comment was without exception of the most friendly character toward the United States. He said this feeling prevailed to a marked extent, even among the peasantry of Russia, and it was a matter of surprise to him, under such circumstances, that reports should be circulated in the United States that Russia was about to assume an unfriendly attitude toward this country.

DESPERATE ENCOUNTER.

Spanish Troops Resist the Landing of Soldiers from the Leyden.

Key West, May 5.—The government tug Leyden, Captain J. H. Angus, steamed into port yesterday and told the following story of a desperate encounter with Spanish troops on the northern coast of Cuba. The Leyden left here Monday with a party of insurgents under General Balmora Acosta and including five Cuban scouts under the leadership of Captain J. H. Dorst of the United States cavalry. The Leyden also carried a large quantity of arms and ammunition. The tug landed five men, with four boxes of ammunition and two horses. General Acosta also landed and penetrated to the interior, where he communicated with the forces of the insurgents. The Leyden lay to outside until morning, when observing a troop of Spanish infantry approaching, she put to sea and got safely away.

The same night she proceeded to Matanzas and Tuesday landed another small party near there. Fearing attack by the Spaniards, she looked for the monitors Terror and Amphitrite, which are on the blockade in that vicinity, but, being unable to locate them, the Leyden returned to the original landing place, reaching there early Wednesday morning. Here she was met by Acosta and about 300 Cubans, half of whom were armed with rifles. They united with the men on the tug and an attempt was made to land the remaining arms and men, when a troop of 200 of the Villa Vicosa cavalry swooped down on them and a fierce engagement of a half hour's duration followed. The Cubans finally repulsed the enemy, driving them into the woods. During this engagement several rifle bullets went through the Leyden's smokestack, but no one was injured.

The plucky little tug then went in search of the flagship, found her lying near Havana and reported the story.

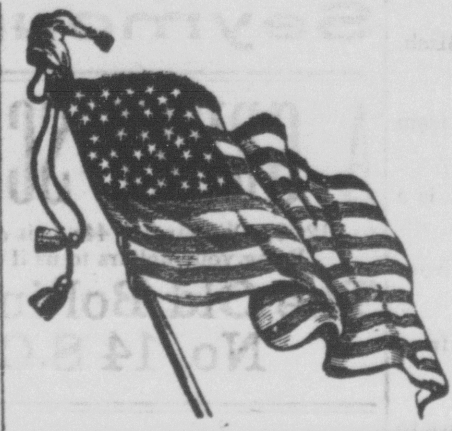

Rear Admiral Sampson sent the gunboat Wilmington back with the Leyden. When the two vessels reached the scene of the landing they found the Spanish cavalry in waiting to welcome another attempted invasion.

The Wilmington lost no time in preliminaries, but promptly opened fire on a number of small houses marking the entrance to the place. The gunboat fired four shots, which immediately drove back the Spaniards, and Captain Dorst, with the ammunition, landed safely, the Leyden returning here.

ORDERED TO TAMPA.

Twenty-Fifth Infantry to Be Sent With All Possible Speed.

Chickamauga National Park, May 6.—Orders have been received from the war department by General Brooke, commanding the provisional army corps at Chickamauga park, to dispatch the Twenty-fifth infantry (colored), Colonel Bart commanding, with all speed possible to Tampa, Fla. Two companies of this regiment are now at Dry Tortugas and it is believed that the destination of the remainder of the regiment is the same point. It is further believed that the regiment will shortly go to the front, as Colonel Bart, who has been named as a brigadier general in the volunteer army, is expected to go south with his command. It is the purpose to embark

Discretionary With the President.

Washington, May 6.—It is the understanding that the bill pending in congress providing for the enlistment of 10,000 "immunes" and a brigade of engineers will be modified so as to leave it discretionary with the president to recruit probably 15,000 men made up of such special classes as he may deem best for the service. These classes, it is expected will include "immunes," signal corps, cowboy companies and artillery and other regiments. This course is regarded at the war department as better than that proposed in the bill in that it will enable the president to provide for obtaining such troops as he may think best.

Ammunition for Dewey.

Lima, O., May 6.—Three special cars loaded with fixed cartridges for the use of the Pacific squadrons rapid fire guns, and attached to the Wells, Fargo express train on the Chicago and Erie road, passed through this city last night. The cars are being rushed to San Francisco with all possible speed, and will be hurried on to Commodore Dewey's vessels.

Illinois Troops Mustered.

Springfield, Ill., May 6.—The First battalion, Fifth regiment, Illinois National Guard, was mustered into the federal service yesterday. Medical officials examined and accepted the Second battalion of the Fifth and the First battalion of the Third regiment. They will be mustered in today.

Munitions of War.

Davenport, Ia., May 6.—Eighteen carloads of munitions of war, including nearly 3,000,000 rounds of ammunition, were shipped to eastern and southern ports from the Rock Island arsenal yesterday.

Diseased Milk.

Columbus, O., May 6.—Five children of W. G. Shafter became violently ill after eating bread and milk. Physicians say the illness was caused by poison, due, it is supposed, to diseased milk.

Most Remarkable Rise in Wheat in Many Years at Chicago.

Chicago, May 6.—One dollar and fifty cents per bushel was the price of May wheat at the end of yesterday's session of the board of trade. This represents an advance in one day of 20 cents. The advance was the most remarkable in many years. Famine of grain abroad and enormous sales of American wheat to fill the empty granaries of Europe caused the advance here. Shorts were driven to cover and one small failure was announced.

THE QUEEN REGENT

Preparing to Flee From the Spanish Capital to Vienna.

ENGAGED APPARTMENTS

Only Waiting For a Suitable Time to Arrive.

Spanish Battleship Pelayo and Cruisers Alfonso XIII, Patriota and Rapido Are Preparing With All Speed to Sail From Cadiz—El Liberal Takes a Gloomy View of the Situation—Bluff Telegram Sent to Madrid From Cuba and Porto Rico. Other War News.

London, May 6.—The Vienna correspondent of The Daily Telegraph says: "Apartments have been reserved at a hotel here for the Queen Regent of Spain in case she arrives before apartments have been prepared for her in her brother's palace."

"Telegrams from the Austrian ambassador at Madrid, Count Dubsky, indicate that the queen regent is only waiting for a suitable moment to quit Spain without detriment to the interests of her son."

A dispatch to The Daily Chronicle from Cadiz, dated Tuesday, says: "The battleship Pelayo and the cruiser Alfonso XIII have left their anchorage in the bay and gone to the dockyard. The cruisers Patriota and Rapido are preparing with all speed, and all are expected to sail together. Cadiz is overwhelmed by the news of the Philippine disaster, the lost crews numbering many Cadizians."

A dispatch to The Daily Chronicle from Kingston, Jamaica, says that in anticipation of an invasion, the Spanish troops are concentrating in seaports of Cuba and have abandoned the interior to the insurgents.

GLOOMY OUTLOOK.

El Heraldo Thinks the End Is Near at Hand.

Madrid, May 6.—El Liberal in a gloomy article which states the "Subterranean rumblings preceding social upheaval," are heard, declares that "the fate of the country cannot remain longer with the weak hands and worn out intellects of the men now governing the country."

It is alleged that the governments of Cuba and Porto Rico have cabled that there is "no need to fear a landing of American troops in those islands; that two ironclads, two cruisers and three transports will leave Cadiz forthwith to chase the Yankees from the Philippines and then bombard California ports."

In Cortes yesterday the minister of marine declined to give the whereabouts of the Cape Verde squadron.

NO NEW FACTS.

Belief in London That Dewey Has Not Effectual Possession of Manila.

London, May 6.—There are absolutely no new facts connected with the Hispano-American situation today from any source. The absence of news from Commodore Dewey causes a great deal of speculation, the balance of opinion inclining to the view that, while in no danger, he has not been able to get effectual possession of Manila.

The latest dispatches from Madrid say that the measures the cortes has adopted have had the effect of reducing the agitation in the provinces, but looking to the severe censorship, such optimistic reports may well be doubted.

Battle in Havana Province.

Key West, May 6.—A dispatchboat has arrived here bringing intelligence of an engagement between Spanish and insurgent troops in Havana province, in which Colonel Juan Delgado, the insurgent leader, and four men were killed, and the Spanish lost 21. No further details are known, and even these are obtained from hearsay in Havana. Even the date of the engagement is not given, although it is understood to be of recent occurrence.

Robledos Wants an Income Tax.

Madrid, May 6.—The debate on the governments policy was resumed in the congress today, the sitting being mainly occupied with the continuation of Senator Romero y Robledos speech. He severely criticised the government for its lack of foresight, and after putting various questions to members of the cabinet as to the government plans, he announced that he would ask the cortes to vote an income tax.

Senator Romero y Robledos asked why, after issuing from the bay, Admiral Montojo returned to Cavite, "thus becoming a simple target for the enemy?" Admiral Montojo acted entirely at his own discretion, no instructions having been sent him.

Without Ammunition.

London, May 6.—The Paris correspondent of The Daily Mail says: "I hear on indisputable authority that five of the Spanish warships, including the battleship Pelayo and the fine cruiser Alfonso XIII have not yet been supplied with ammunition. This was the cause of the delay in the sailing of the Cape Verde fleet and will probably compel it to return to Cadiz."

Colonial Congress.

Havana, May 6.—The colonial congress held its first session at noon yesterday. Former civil governor Jose Bruzon was elected president of the senate and Senator Jose Manuel Del Ono to president of the lower house.

TWO DIVISIONS.

Sampson's Fleet Will Be Divided—Commodore Watson.

Key West, May 6.—A naval officer of high rank told a correspondent of the press last night that the division of Admiral Sampson's squadron, already indicated from Washington, will, in all probability go into effect forthwith. Commodore Watson will raise his flag on the cruiser Cincinnati and his command will include other cruisers and gunboats.

Commodore Remy, who will command the other division of the fleet, Rear Admiral Sampson being commander of both divisions, is expected here in a few days.

The conditions of the Havana blockade remain unchanged, the line being rigidly kept by the Montgomery and other cruisers under Captain Converse, who is still in temporary command.

Ignorant of Events.

Delaware Breakwater, Del., May 6.—The Spanish bark San Ignacio de Loyala, from Pasades, Bay of Biscay, for Philadelphia, has arrived here. The bark left Pasades on Feb. 15, the day of the Maine explosion, and her captain and crew were ignorant of the momentous events involving their mother country, which have since transpired. The ship will proceed to Philadelphia.

Supplies For Insurgents.

New York, May 6.—Military supplies for the Cuban insurgents from the New York arsenal are piled on the wharf at Governor's Island ready for immediate shipment. The supplies consist of 5,000 Springfield rifles, 100,000 cartridges, 200,000 revolver cartridges and 100 dozen machetes.

Executing Duties of Governor General.

Boston, May 6.—The following telegram, received by F. T. Viles of this city from a friend in Singapore, was read at a banquet of the Electric Club: SINGAPORE, May 5.

Reliable information received here corroborating news of Dewey's victory at Manila, and he is now executing the duties of governor general there.

Ohio and Kentucky Troops.

Cincinnati, O., May 6.—Battery B of the Ohio National Guard which will be known hereafter as troop H, Ohio cavalry, left yesterday for Camp Bushnell at Columbus. The militia at Newport and Covington go to Lexington today.

SENOR DUBOSC.

Makes a Violent Attack on American People in a Lecture.

Toronto, May 6.—Senor DuBosc, late first secretary of the Spanish legation at Washington, lectured to 2,000 people here on the causes of the present war. The lecture was in aid of the Red Cross society work and was delivered in a private capacity.

The senor made a severe attack on the American people as he traced the history of the trouble, reiterating the Spanish arguments and spoke of American senators as "Border ruffians, whose illiterate boorishness is only equalled by their venality and ludicrously pompous conceit."

He urged that American cupidity for conquest constituted a grave danger to Europe, Canada and Mexico, and concluded by comparing the Queen Regent of Spain with "the bloated politicians, whose countenances depict the lust that is in their hearts."

BARON ARRESTED.

Stole 67,000 Florins From His Aunt and Confesses.

New York, May 6.—The steamer Fulda's passenger, who shipped as Edward Gruen and who is really Baron Unterriether, has confessed to the immigration authorities that he stole the 67,000 florins, of which theft he was accused yesterday, and for which he has been detained. The prisoner says he is the son of a Jewish Rabbi. The prisoner will be detained aboard the Fulda and will probably be deported. He stole the money from an aunt in Tyrol.

Postoffice Appropriations Bill.

Washington, May 6.—During almost the entire session yesterday the senate had under consideration the postoffice appropriation bill. The measure carries \$99,234,300. The most important action taken upon the measure was the adoption of an amendment reducing the number of deliveries of mail in all cities of the country to not exceeding four each day. The bill carries no appropriation for free rural delivery. Star route contractors are prohibited from subletting their contracts. In order to get their money they must be able to swear that they performed the service themselves.

Spanish Troops Resist the Landing of

Washington, May 6.—Secretary Long
has received no word from Commodore
Dewey, but feels no apprehension over
the lack of news, because in the first
place reports cannot be expected with
the cable from Manila cut and, further-
more, no fears are entertained as to
Commodore Dewey's ability to maintain
his position. There was no doubt, the
secretary said, that Commodore Dewey's
fleet had annihilated the Spanish fleet
and with this much accomplished Dewey
was master of the situation at Manila.
It was suggested to Mr. Long that the
shore batteries at Cavite and on the
Corrigador islands might be a serious
menace to the American fleet, but the
secretary did not share this view, hold-
ing that the strength of the Olympia
and other ships in Dewey's command
was ample to make him master of Ma-
nila bay and its surroundings.

Preparations for a suitable convey for
the supply ships was indicated yester-
day by the choice of a commander and
officers for the cruiser Charleston, now
at Mare Island. It is recalled at the
navy department in this connection that
having received the surrender of Manila,
the commodore would be able to secure
any quantity of labor, and of such ma-
terial as any city like Manila affords,
for the repair of his ships. He also
would be able to place his wounded in
comfort in some of the Manila hospitals
or other public buildings. It is always
a desire of a prudent naval commander
to get his wounded ashore at the earliest
possible opportunity, as they stand bet-
ter chances of recovery.

No news could be gleaned at the
navy department relative to the move-
ments of Admiral Sampson's ironclads
but from the confident tone of the few
officials who are acquainted with the
policy of the department they are ex-
pecting to hear very soon of news from
his squadron almost as interesting and
important as that received from the
Philippines last Monday. A high offi-
cer of the administration yesterday al-
most demolished the theory that Ad-
miral Sampson was going to succor the
Oregon, now on her way from Brazil to
join the North Atlantic squadron. He
declared that the navy department was
under no apprehension about the Ore-
gon for the reason that it did not con-
sider that the Spanish admiral of the
Cape Verde squadron would be willing
to risk a combat with the Oregon even
at the great odds in his favor as, even
if overwhelmed in the end, the Oregon
certainly would destroy one of the
Spanish ships, and possibly two, and
the Spanish government could not af-
ford to exchange pawns at this stage
of the war. That left open as possible
the points of operation for Sampson as
either Porto Rico or some port on the
Cuban coast, but just which theory is

The young man who
starts in business life
with a good athletic
training back of him will
be able to stand more
than the man who has
not had the same advan-
tage. Nevertheless, if he
overworks and neglects
his health, he is likely to
fall a victim to some fa-
tal malady like his less
fortunate brother.

There is only one
safe road for a man to
tread in the matter of
health. That is the
road of eternal
vigilance. No man, no
matter how strong he
may be naturally,
can with impunity neglect the little life
and indispositions of life. These little dis-
orders are what make the big ones. When
a man suffers from headaches and loss of
appetite, feels drowsy and dull during wak-
ing hours, cannot sleep at night and is
nervous and shaky at all times, he is in a
dangerous condition. If he long neglects
his condition he will find himself a very
sick man. Dr. Pierce's Golden Medical
Discovery is the best of all medicines for
the many diseases that are caused by an
impaired digestion and insufficient and im-
proper nourishment. It creates a hearty,
healthy appetite; it makes digestion and
assimilation perfect; it invigorates the
liver and purifies and enriches the blood.
It is the great blood-maker, flesh-builder
and nerve tonic. It is the best of all medi-
cines for nervous disorders and it cures of
percent of all cases of consumption, if
taken in its earlier stages, before the lungs
are too far wasted. For chronic, bronchial,
throat and nasal affections it is an un-
equalled remedy. An honest dealer will
not suggest some inferior substitute.
Rev. C. M. Leonard, (P. O. Box 209), Quana-
hardman Co., Texas, writes: "I write to say
that during the last trouble between the States
it became my duty as well as privilege to speak
in the open air at night, which produced slight
hemorrhages and loss of voice from which I had
suffered more or less for a number of years, until
that God-sent 'Golden Medical Discovery' given
to the world by the inventive and scientific brain
of Dr. R. C. Pierce, was obtained. After six bot-
tles had been used the pains and aches in my
lungs began to give way, and now I feel that
with a judicious course of life I may live many
years. I thank God for giving to the world a
man who has done so much for suffering hu-
manity."

to be accepted is not even hinted at by the departmental officials.

Brazil Is Neutral.
Notice has come to the state depart-
ment from Brazil that that government
has declared neutrality. There is now
no cause to regret such action on the
part of Brazil, for, however beneficial
the delay has been to the United States
in getting its warships safely along the
Brazilian coast, the issue of the procla-
mation just now is likely to be still
more beneficial in closing Brazilian
ports to the Spanish flying squadron, if
it should be headed in that direction.
It may be noted, however, that while
the first reports were received with little
credit, the advices coming to the navy
department late yesterday, though not
conclusive, inclined the officers to the
belief that the Spanish flying squadron
really has turned back from Cape Verde
to consolidate with the home squadron
at Cadiz.
Great pressure is being brought to
bear upon the war department to secure
appointments to second lieutenantcies
authorized by the recently enacted Hull
bill. The list of applicants include
many bright young men, for the regu-
lations require them to be under 30.
Among them are former students at
West Point, newspaper men and others
with political influence back of them.

RUSSIA IS FRIENDLY.

Diplomat Deprecates Statement to the
Contrary Sent From London.
Washington, May 6.—A leading Rus-
sian diplomat says that the cable report
from London stating that Emperor
Nicholas of Russia was much disturbed
as to the ultimate destiny of the Philip-
pines, and that some sort of immediate
intervention was probable, was entirely
unwarranted and placed Russia in a
misleading position before the people of
this country. He says the sentiment
throughout Russia, official and unoffi-
cial, is one of extreme cordiality toward
the United States, and it shows there
will be no change in the traditional
friendship existing between the United
States and Russia. The friendly feel-
ing, he pointed out, was shown by the
Russian newspapers which arrived in
the mail to the Russian embassy only
yesterday. They were published just
after the declaration of war, and their
comment was without exception of the
most friendly character toward the
United States. He said this feeling pre-
vailed to a marked extent, even among
the peasantry of Russia, and it was a
matter of surprise to him, under such
circumstances, that reports should be
circulated in the United States that
Russia was about to assume an un-
friendly attitude toward this country.

DESPERATE ENCOUNTER.

Spanish Troops Resist the Landing of
Soldiers from the Leyden.
Key West, May 5.—The government
tug Leyden, Captain J. H. Angus,
steamed into port yesterday and told
the following story of a desperate en-
counter with Spanish troops on the
northern coast of Cuba. The Leyden
left here Monday with a party of in-
surgents under General Baldomero Acosta
and including five Cuban scouts under
the leadership of Captain J. H. Dorst
of the United States cavalry. The Leyden
also carried a large quantity of arms
and ammunition. The tug landed five
men, with four boxes of ammunition
and two horses. General Acosta also
landed and penetrated to the interior,
where he communicated with the forces
of the insurgents. The Leyden lay to
outside until morning, when observing
a troop of Spanish infantry approach-
ing, she put to sea and got safely away.
The same night she proceeded to Ma-
tanzas and Tuesday landed another
small party near there. Fearing attack
by the Spaniards, she looked for the
monitors Terror and Amphitrite, which
are on the blockade in that vicinity, but
being unable to locate them, the Leyden
returned to the original landing place,
reaching there early Wednesday morn-
ing. Here she was met by Acosta and
about 300 Cubans, half of whom were
armed with rifles. They united with
the men on the tug and an attempt was
made to land the remaining arms and
men, when a troop of 200 of the Villa
Vicosa cavalry swooped down on them
and a fierce engagement of a half hour's
duration followed. The Cubans finally
repulsed the enemy, driving them into
the woods. During this engagement
several rifle bullets went through the
Leyden's smokestack, but no one was
injured.
The plucky little tug then went in
search of the flagship, found her lying
near Havana and reported the story.

Rear Admiral Sampson sent the gun-
boat Wilmington back with the Leyden.
When the two vessels reached the scene
of the landing they found the Spanish
cavalry in waiting to welcome another
attempted invasion.
The Wilmington lost no time in pre-
liminaries, but promptly opened fire on
a number of small houses marking the
entrance to the place. The gunboat
fired four shots, which immediately
drove back the Spaniards, and Captain
Dorst, with the ammunition, landed
safely, the Leyden returning here.

Discretionary With the President.

Washington, May 6.—It is the under-
standing that the bill pending in con-
gress providing for the enlistment of
10,000 "immunes" and a brigade of en-
gineers will be modified so as to leave it
discretionary with the president to re-
cruit probably 15,000 men made up of
such special classes as he may deem
best for the service. These classes, it is
expected will include "immunes," sig-
nal corps, cowboy companies and ar-
tillery and other regiments. This course
is regarded at the war department as
better than that proposed in the bill in
that it will enable the president to pro-
vide for obtaining such troops as he may
think best.

Ammunition for Dewey.

Lima, O., May 6.—Three special cars
loaded with fixed cartridges for the use
of the Pacific squadrons rapid fire guns,
and attached to the Wells, Fargo ex-
press train on the Chicago and Erie
road, passed through this city last night.
The cars are being rushed to San Fran-
cisco with all possible speed, and will
be hurried on to Commodore Dewey's
vessels.

Illinois Troops Mustered.

Springfield, Ill., May 6.—The First
battalion, Fifth regiment, Illinois Na-
tional Guard, was mustered into the
federal service yesterday. Medical offi-
cers examined and accepted the Second
battalion of the Fifth and the First bat-
talion of the Third regiment. They
will be mustered in today.

Munitions of War.

Davenport, Ia., May 6.—Eighteen car-
loads of munitions of war, including
nearly 3,000,000 rounds of ammunition,
were shipped to eastern and southern
ports from the Rock Island arsenal yester-
day.

Diseased Milk.

Columbus, O., May 6.—Five children
of W. G. Shapter became violently ill
after eating bread and milk. Physi-
cians say the illness was caused by
poison, due, it is supposed, to diseased
milk.

THE MARKETS.

Most Remarkable Rise in Wheat in
Many Years at Chicago.
Chicago, May 6.—One dollar and fifty
cents per bushel was the price of May
wheat at the end of yesterday's ses-
sion of the board of trade. This represents
an advance in one day of 20 cents. The
advance was the most remarkable in
many years. Famine of grain abroad
and enormous sales of American wheat
to fill the empty granaries of Europe
caused the advance here. Shorts were
driven to cover and one small failure
was announced.

ENGAGED APPARTMENTS

Only Waiting For a Suit-
able Time to Arrive.

Spanish Battleship Pelayo and Cruisers
Alfonso XIII, Patriota and Rapido Are
Preparing With All Speed to Sail From
Cadiz—El Liberal Takes a Gloomy View
of the Situation—Huff Telegram Sent
to Madrid From Cuba and Porto Rico.
Other War News.

London, May 6.—The Vienna corre-
spondent of The Daily Telegraph says:
"Apartments have been reserved at a
hotel here for the Queen Regent of
Spain in case she arrives before apart-
ments have been prepared for her in her
brother's palace."

"Telegrams from the Austrian am-
bassador at Madrid, Count Dubsky, in-
dicate that the queen regent is only
waiting for a suitable moment to quit
Spain without detriment to the interests
of her son."

A dispatch to The Daily Chronicle
from Cadiz, dated Tuesday, says: "The
battleship Pelayo and the cruiser Alfonso
XIII have left their anchorage in the
bay and gone to the dockyard. The
cruisers Patriota and Rapido are pre-
paring with all speed, and all are ex-
pected to sail together. Cadiz is over-
whelmed by the news of the Philippine
disaster, the lost crews numbering many
Cadizians."

A dispatch to The Daily Chronicle
from Kingston, Jamaica, says that in
anticipation of an invasion, the Spanish
troops are concentrating in seaports of
Cuba and have abandoned the interior
to the insurgents.

GLOOMY OUTLOOK.

El Heraldo Thinks the End Is Near at
Hank.

Madrid, May 6.—El Liberal in a
gloomy article which states the "Sub-
terranean rumblings preceding social
upheaval," are heard, declares that "the
fate of the country cannot remain long-
er with the weak hands and worn out
intellects of the men now governing the
country."

It is alleged that the governments of
Cuba and Porto Rico have cabled that
there is "no need to fear a landing of
American troops in those islands; that
two ironclads, two cruisers and three
transports will leave Cadiz forthwith to
chase the Yankees from the Philippines
and then bombard California ports."

In Cortes yesterday the minister of
marine declined to give the whereabouts
of the Cape Verde squadron.

NO NEW FACTS.

Belief in London That Dewey Has Not
Effectual Possession of Manila.

London, May 6.—There are absolutely
no new facts connected with the His-
pano-American situation today from
any source. The absence of news from
Commodore Dewey causes a great deal
of speculation, the balance of opinion
inclining to the view that, while in no
danger, he has not been able to get ef-
fectual possession of Manila.

The latest dispatches from Madrid
say that the measures the cortes has
adopted have had the effect of reducing
the agitation in the provinces, but look-
ing to the severe censorship, such opti-
mist reports may well be doubted.

Battle in Havana Province.

Key West, May 6.—A dispatchboat
has arrived here bringing intelligence
of an engagement between Spanish and
insurgent troops in Havana province,
in which Colonel Juan Delgado, the in-
surgent leader, and four men were
killed, and the Spanish lost 21. No
further details are known, and even
these are obtained from hearsay in Ha-
vana. Even the date of the engagement
is not given, although it is understood
to be of recent occurrence.

Robledos Wants an Income Tax.

Madrid, May 6.—The debate on the
government's policy was resumed in the
congress today, the sitting being main-
ly occupied with the continuation of
Senator Romero y Robledos speech. He
severely criticised the government for
its lack of foresight, and after putting
various questions to members of the
cabinet as to the government plans, he
announced that he would ask the cor-
tes to vote an income tax.

Senator Romero y Robledos asked why,
after issuing from the bay, Admiral
Montejo returned to Cavite, "thus be-
coming a simple target for the enemy?"
Admiral Bermejo, minister of marine,
replied that Admiral Montejo acted en-
tirely at his own discretion, no instruc-
tions having been sent him.

Without Ammunition.

London, May 6.—The Paris corre-
spondent of The Daily Mail says: "I
hear on indisputable authority that five
of the Spanish warships, including the
battleship Pelayo and the fine
cruiser Alfonso XIII have not yet been
supplied with ammunition. This was
the cause of the delay in the sailing of
the Cape Verde fleet and will probably
compel it to return to Cadiz."

Colonial Congress.

Havana, May 6.—The colonial con-
gress held its first session at noon yester-
day. Former civil governor Jose
Bruzon was elected president of the
senate and Senator Jose Manuel Del C-
so president of the lower house.

TWO DIVISIONS.

Sampson's Fleet Will Be Divided—Com-
modore Watson.

Key West, May 6.—A naval officer of
high rank told a correspondent of the
press last night that the division of Ad-
miral Sampson's squadron, already in-
dicated from Washington, will, in all
probability go into effect forthwith.
Commodore Watson will raise his flag on
the cruiser Cincinnati and his com-
mand will include other cruisers and
gunboats.

Commodore Remy, who will com-
mand the other division of the fleet,
Rear Admiral Sampson being com-
mander of both divisions, is expected
here in a few days.

The conditions of the Havana block-
ade remain unchanged, the line being
rigidly kept by the Montgomery and
other cruisers under Captain Converse,
who is still in temporary command.

Ignorant of Events.

Delaware Breakwater, Del., May 6.—
The Spanish bark San Ignacio de Loyola,
from Pasades, Bay of Biscay, for Phila-
delphia, has arrived here. The bark
left Pasades on Feb. 15, the day of the
Maine explosion, and her captain and
crew were ignorant of the momentous
events involving their mother country,
which have since transpired. The ship
will proceed to Philadelphia.

Supplies For Insurgents.

New York, May 6.—Military supplies
for the Cuban insurgents from the New
York arsenal are piled on the wharf at
Governor's Island ready for immediate
shipment. The supplies consist of 5,000
Springfield rifles, 100,000 cartridges,
200,000 revolver cartridges and 100 dozen
machetes.

Executing Duties of Governor General.

Boston, May 6.—The following tele-
gram, received by F. T. Viles of this
city from a friend in Singapore, was
read at a banquet of the Electric club:
SINGAPORE, May 5.
Reliable information received here cor-
roborating news of Dewey's victory at
Manila, and he is now executing the du-
ties of governor general there.

Ohio and Kentucky Troops.

Cincinnati, O., May 6.—Battery B of
the Ohio National Guard which will be
known hereafter as troop H, Ohio cav-
alry, left yesterday for Camp Bushnell at
Columbus. The militia at Newport and
Covington go to Lexington today.

SENOR DUBOSC.

Makes a Violent Attack on American
People in a Lecture.

Toronto, May 6.—Senor DuBosc, late
first secretary of the Spanish legation at
Washington, lectured to 2,000 people
here on the causes of the present war.
The lecture was in aid of the Red Cross
society work and was delivered in a
private capacity.

The senor made a severe attack on
the American people as he traced the
history of the trouble, reiterating the
Spanish arguments and spoke of Ameri-
can senators as "Border ruffians, whose
illiterate boorishness is only equalled by
their venality and ludicrously pompous
conceit."

He urged that American cupidity for
conquest constituted a grave danger to
Europe, Canada and Mexico, and con-
cluded by comparing the Queen Regent
of Spain with "the bloated politicians,
whose countenances depict the lust that
is in their hearts."

BARON ARRESTED.

Stole 67,000 Florins From His Aunt and
Confesses.

New York, May 6.—The steamer
Fulda's passenger, who shipped as Ed-
ward Gruen and who is really Baron
Unterriether, has confessed to the im-
migration authorities that he stole the
67,000 florins, of which theft he was ac-
cused yesterday, and for which he has
been detained. The prisoner says he is
the son of a Jewish Rabbi. The prisoner
will be detained aboard the Fulda and
will probably be deported. He stole the
money from an aunt in Tyrol.

Postoffice Appropriations Bill.

Washington, May 6.—During almost
the entire session yesterday the senate
had under consideration the postoffice
appropriation bill. The measure carries
\$99,244,300. The most important action
taken upon the measure was the adop-
tion of an amendment reducing the
number of deliveries of mail in all cities
of the country to not exceeding four
each day. The bill carries no appropria-
tion for free rural delivery. Star route
contractors are prohibited from sublet-
ting their contracts. In order to get
their money they must be able to swear
that they performed the service themselves.

MONTHLY SUFFERING.

Thousands of women are troubled at monthly intervals with pains in the head, back, breasts, shoulders, sides hips and limbs. But they need not suffer.

These pains are symptoms of dangerous derangements that can be corrected. The menstrual function should operate painlessly.

McELREE'S Wine of Cardui

makes menstruation painless, and regular. It puts the delicate menstrual organs in condition to do their work properly. And that stops all this pain. Why will any woman suffer month after month when Wine of Cardui will relieve her? It costs \$2.00 at the drug store. Why don't you get a bottle to-day?

For advice, in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. ROZENA LEWIS, of Greenville, Texas, says:

"I was troubled at monthly intervals with terrible pains in my head and back, but have been entirely relieved by Wine of Cardui."

A NATIONAL RESERVE.

The plan for a "National Volunteer Reserve," about which the REPUBLICAN has previously had something to say, is commended by Major-General O. O. Howard. He says:

"I think the plan excellent. An un-

armed reserve of such large proportion will have a conservative effect in its influence abroad and prevent panics at home. There will result nothing of especially of a military or warlike character, but simply the order and comradeship which will bind men together and increase their efforts to preserve a perpetual peace. But should our cities and towns be exposed to destruction by any foe, or the life of our beloved country be threatened, these quotas would be raised and offered to our administration without uncertainty or delay. The proposal as I understand it is an admirable one."

Sixty days ago Commodore Dewey was unknown to a majority of his countrymen. His name does not appear in any encyclopedia or biographical history. Today he ranks with Nelson, Farragut or Paul Jones. Thus it is that when the opportunity presents itself great Americans are revealed.

PRESIDENT MCKINLEY's plan for the prosecution of the war against Spain is being revealed from day to day as events follow each other in rapid succession. A few weeks ago when many were impatient at what they termed inaction, the president was planning for vigorous action. Supplies were sent to Dewey with instructions to take possession of the Philippines, which has already been done. Now it seems that Porto Rico is next to be taken. While some politicians have complained that the administration was too slow, the fact is that in no previous war has so much been accomplished in so short a time.

How News Comes From Manila.

Before communications were cut between Manila and Hong Kong a message from Manila was sent by a telegraph line 100 miles to Cape Bolinao, thence by a cable 529 miles long to Hong Kong, thence down the China sea over a 460-mile cable to Saigon in Cochinchina. By another cable 630 miles long the message reached Singapore, which is located on the straits. From Singapore the message traveled over a cable that runs around the Malay peninsula to the island of Penang, which is on the western coast of Lower Siam, a distance of 388 miles. From Penang to Madras the message traveled on another submarine cable 1498 miles long. At Madras the message reached the first land telegraph line after leaving the island of Luzon, of which Manila is the capital. From Madras it went overland 800 miles and was again put on a cable to cross the Arabian sea to Aden, which is located on an overhead wire 200 miles to Alexandria. From Alexandria over a 912 mile cable it reached the Island of Malta, thence 1,126 miles by cable to Gibraltar. From Gibraltar to Carcavellos, near Lisbon, the capital of Portugal, it traveled on a 337-mile cable and thence by an 856-mile ocean cable it reached the cable station at Land's End, England. From Land's End the message has the choice of eleven ocean cables to reach Dover bay, near Canis, Nova Scotia, 2,531 miles. There the message was again repeated over the coast cable to New York, 888 miles. From New York it could take any one of a multitude of routes to Seymour the total distance traveled being not less than 15,000 miles.

At every one of the points named in the foregoing the message had to be repeated. The only possible way now, however, by which the circuitous route for a message can be begun is for it to be carried from Manila in a steam vessel to Hong Kong, and it is on this slow transmission of the important intelligence the civilized world now waits with bated breath.

Commissioners' Court.

The board of commissioners met in special session Wednesday all members present.

A petition to gravel about five miles more of the roads in Jackson township was presented, and the board appointed George Slagel as engineer and Jacob Baldwin and Calvin Davis as viewers to view and report on the same at their regular June term 1898.

The auditor was directed to have struck \$16,000 worth of gravel road bonds for the payment of the Brownstown gravel roads.

The Clearspring and Freetown gravel road was received of the contractor, L. P. Byrne, and made a part of the free gravel road system of the county.

The board set Wednesday June 8th, 1898, as the day for letting the contract for the construction of the gravel roads in Hamilton township, and also the Seymour and Dudleytown gravel road in Jackson and Washington townships. There will be about fifty miles in all.

Jas. W. Wayman, engineer, and Martin Kober, a viewer on the Owen township gravel roads came before the board and asked to be relieved from above roads, and the board appointed Wm. Carr as engineer and Elisha Sewell in their places.

A GREAT SCHEME

Why not make your dollars out of rubber? That's a great scheme. Then they'll stretch. It's a pretty hard matter to make a five dollar bill stretch over a ten dollar purchase, and even we can't do that for you—but yet, until rubber dollars are made, we'll come nearer to it than any store you know of. We'll stretch \$5.48 so it will cover a splendid \$7.00 suit. We stretch \$6.98 over a fancy all wool cassimere suit that ought to cost \$9.00. We stretch \$7.98 over suits that are worth \$10.00 to \$11.00. We stretch \$8.98 over suits that ought to sell at \$11.00 to \$12.50. We stretch 44c so it covers a percale shirt with two collars. We stretch 89c so it will cover a \$1.25 shirt with two collars and cuffs. Bring your dollars to us if you want them stretched. You'll think it's rubber.

MONTHLY SUFFERING.

Thousands of women are troubled at monthly intervals with pains in the head, back, breasts, shoulders, sides, hips and limbs. But they need not suffer.

These pains are symptoms of dangerous derangements that can be corrected. The menstrual function should operate painlessly.

McELREE'S Wine of Cardui makes menstruation painless, and regular. It puts the delicate menstrual organs in condition to do their work properly. And that stops all this pain. Why will any woman suffer month after month when Wine of Cardui will relieve her? It costs \$1.00 at the drug store. Why don't you get a bottle to-day?

For advice, in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. ROZENA LEWIS, of Greenville, Texas, says: "I was troubled at monthly intervals with terrible pains in my head and back, but have been entirely relieved by Wine of Cardui."

A NATIONAL RESERVE.

The plan for a "National Volunteer Reserve," about which the REPUBLICAN has previously had something to say, is commended by Major-General O. O. Howard. He says:

"I think the plan excellent. An unarmored reserve of such large proportion will have a conservative effect in its influence abroad and prevent panics at home. There will result nothing of especially a military or warlike character, but simply the order and comradeship which will bind men together and increase their efforts to preserve a perpetual peace. But should our cities and towns be exposed to destruction by any foe, or the life of our beloved country be threatened, these quotas would be raised and offered to our administration without uncertainty or delay. The proposal as I understand it is an admirable one."

SIXTY days ago Commodore Dewey was unknown to a majority of his countrymen. His name does not appear in any encyclopedia or biographical history. Today he ranks with Nelson, Farragut or Paul Jones. Thus it is that when the opportunity presents itself great Americans are revealed.

PRESIDENT MCKINLEY's plan for the prosecution of the war against Spain is being revealed from day to day as events follow each other in rapid succession. A few weeks ago when many were impatient at what they termed inaction, the president was planning for vigorous action. Supplies were sent to Dewey with instructions to take possession of the Philippines, which has already been done. Now it seems that Porto Rico is next to be taken. While some politicians have complained that the administrations was too slow, the fact is that in no previous war has so much been accomplished in so short a time.

How News Comes From Manila.

Before communications were cut between Manila and Hong Kong a message from Manila was sent by a telegraph line 100 miles to Cape Bolinao, thence by a cable 329 miles long to Hong Kong, thence down the China sea over a 460-mile cable to Saigon in Cochinchina. By another cable 630 miles long the message reached Singapore, which is located on the straits. From Singapore the message traveled over a cable that runs around the Malay peninsula to the island of Penang, which is on the western coast of Lower Siam, a distance of 388 miles. From Penang to Madras the message traveled on another submarine cable 1,498 miles long. At Madras the message reached the first land telegraph line after leaving the island of Luzon, of which Manila is the capital. From Madras it went overland 800 miles and was again put on a cable to cross the Arabian sea to Aden, which is located on an overhead wire 200 miles to Alexandria. From Alexandria over a 912 mile cable it reached the island of Malta, thence 1,126 miles by cable to Gibraltar. From Gibraltar to Carcayello, near Lisbon, the capital of Portugal, it traveled on a 337-mile cable and thence by an 856-mile ocean cable it reached the cable station at Land's End, England. From Land's End the message has the choice of eleven ocean cables to reach Dover bay, near Canosa, Nova Scotia, 2,531 miles. There the message was again repeated over the coast cable to New York, 888 miles. From New York it could take any one of a multitude of routes to Seymour the total distance traveled being not less than 15,000 miles.

At every one of the points named in the foregoing the message had to be repeated. The only possible way now, however, by which the circuitous route for a message can be begun is for it to be carried from Manila in a steam vessel to Hong Kong, and it is on this slow transmission of the important intelligence the civilized world now waits with bated breath.

Commissioners' Court.

The board of commissioners met in special session Wednesday all members present.

A petition to gravel about five miles more of the roads in Jackson township was presented, and the board appointed George Slagel as engineer and Jacob Baldwin and Calvin Davis as viewers to view and report on the same at their regular June term 1898.

The auditor was directed to have struck \$16,000 worth of gravel road bonds for the payment of the Brownstown gravel roads.

The Clearspring and Freetown gravel road was received of the contractor, L. P. Byrne, and made a part of the free gravel road system of the county.

The board set Wednesday June 8th, 1898, as the day for letting the contract for the construction of the gravel roads in Hamilton township, and also the Seymour and Dudleytown gravel road in Jackson and Washington townships. There will be about fifty miles in all.

Jas. W. Wayman, engineer, and Martin Kober, a viewer on the Owen township gravel roads came before the board and asked to be relieved from above roads, and the board appointed Wm. Carr as engineer and Elisha Sewell in their places.

Why not make your dollars out of rubber? That's a great scheme. Then they'll stretch. It's a pretty hard matter to make a five dollar bill stretch over a ten dollar purchase, and even we can't do that for you—but yet, until rubber dollars are made, we'll come nearer to it than any store you know of. We'll stretch \$5.48 so it will cover a splendid \$7.00 suit. We stretch \$6.98 over a fancy all wool cassimere suit that ought to cost \$9.00. We stretch \$7.98 over suits that are worth \$10.00 to \$11.00. We stretch \$8.98 over suits that ought to sell at \$11.00 to \$12.50. We stretch 44c so it covers a percale shirt with two collars. We stretch 89c so it will cover a \$1.25 shirt with two collars and cuffs. Bring your dollars to us if you want them stretched. You'll think it's rubber.

P. A. Bonebrake, superintendent of the Louisville division of the Pennsylvania lines, states that the damages from the floods of a few weeks ago have practically been overcome. The track rides as smoothly as ever, but in some places the roadbed looks ragged and the fences are down, but a few days will overcome all trouble on that score. Eleven thousand tons of new heavy steel rail is now being placed in the track, and within sixty days Mr. Bonebrake says there will be no better 110 miles of track in the west than that of the J. M. & I. between Indianapolis and Louisville.

The State Normal school trustees have directed that hereafter all applicants must hold diplomas from commissioned high schools or colleges, or have a three years' license. The board also decided to make gymnasium work compulsory.

Facts About Flashlights.

A few years ago it was not generally known that photographs could be taken successfully by means of artificial light, but now it is an important branch of a progressive photographic business.

Many people, however have the mistaken idea that photographs by flashlight can only be taken at night when all the lights are out.

With the improved apparatus now in use the artist can successfully photograph family reunions and groups at home, parties of the little people, weddings and banquets and in fact anything, anywhere and at anytime.

Seymour is fortunate in having a gallery equipped for such work. Frank Cloud, the photographer, is prepared to do flashlight work at all times and his work is always guaranteed to give entire satisfaction.

DOUBTFUL STORY ABOUT DEWEY BEING ENTRAPPED.

England Again Refuses to Intervene to End the War.

Special Dispatch to the REPUBLICAN

Key West, May 6, (3.30 p. m.)—The Annapolis which is engaged in blockading the harbor at Havana today captured the French liner, Lafayette while she was trying to run the blockade of Havana.

The Lafayette had been repeatedly warned by the blockading squadron not to attempt to enter the harbor, but paid no attention to the warning.

Sampson's Fleet Sighted.

KINGSTON, Jamaica, May 6, (3.45 p. m.)—Four United States war ships have been sighted off Porto de Bares, Cuba. They are supposed to be a part of Rear Admiral Sampson's fleet.

England Refuses to Intervene.

WASHINGTON, May 6.—Certain European powers have again made overtures to Great Britain to intervene in the American-Spanish war and Great Britain again refuses to do so, thus showing her friendship for the United States.

War Ships for Philippines.

MANRIB, May 6, (4 p. m.)—It is reported that the government has decided to dispatch immediately from Cadiz two iron clads, two cruisers and three transport ships to drive the Americans out of the Philippines and then bombard California ports.

A Doubtful Story.

LONDON, May 6.—The Spanish authorities are intimating that Commodore Dewey has been entrapped by Spanish gunboats which were kept concealed outside the harbor. It is believed however, that the Spaniards are only trying to make as much as possible out of the absence of news from the American fleet.

There are indications that Rear Admiral Sampson may attack the Canary island.

Buenos Ayres, May 6.—The Spanish torpedo gunboat has sailed for some unknown destination.

Mrs. Della M. Jones, Granville, N. Y., writes: "I have the the highest praise to give to Dr. Bull's cough Syrup. We have used it in our family for five years with the best effects."

CITY COUNCIL.

Last Business of The Old Council And The First of The New.

The city council met in regular session last night with the mayor in the chair and all councilmen in their places.

Minutes of previous meeting read and approved. Also minutes of special meeting, April 30, called to select an election inspector in place of Frank Woodmansee, resigned, were read and approved.

Goodale of fire department committee recommended some repairs on the stove in the council chamber. So ordered.

Mr. Goodale recommended that the new committee make a careful examination of the fire department equipment at once.

Burkley, chairman of the committee on public schools, made a report of what had been observed in the several departments of the public schools on visitation day, all of which was highly complimentary to the educational work being done in the Seymour public schools.

Schwing of the grade committee reported that it was the unanimous opinion of this committee that McDonald street be opened and that the same be referred to the city commissioners. Laid on the table for the action of the new council.

Goodale of the improvement committee reported that he had talked with J. H. Peters about the proposed ditch to drain the west end of seventh street, but was unable to reach an agreement with Mr. Peters, through whose land the ditch would extend.

City Attorney Marshall reported that the claim presented by John McDonald for rebate of assessment on North Vine street was not a valid claim.

The city engineer submitted plans and specifications and specifications and probable cost of proposed ditch from the west end of 7th street.

Street commissioner reported that all the alleys throughout the city had been cleaned as directed by the council.

Dr. Graessle's resignation as health officer was read and accepted.

Claims to the amount of \$736.05 were allowed.

Burkley presented a resolution repealing the ordinance for a tile drain in the alley between Second and Third street west from Blush at intersecting the Branch street sewer.

A resolution was adopted unanimously complimenting the services rendered the city by the retiring members of the council.

The ordinance introduced by Bergdall repealing ordinance No. 496 providing for an accounting stamp was read the second time, advanced and adopted.

Old Council adjourned and the newly elected councilman were introduced by their predecessors. After roll call the rules governing the old council were adopted.

The recommendations of the grade committee for the opening of McDonald street were adopted.

The mayor announced the following standing committee:

Judiciary—Shields, DeGolyer, Price, Finance—Miller, Huber, Shepard, Accounts, claims, printing—Shepard, Binder, Gibson.

Fire department—Miller, Gibson, Shields.

Water works—Price, Bretthauer, Thompson.

Public schools—Huber, Thompson, Shepard.

Grade committee—DeGolyer, Shields, Miller, Bretthauer.

Light committee—Bretthauer, Binder, Gibson.

Improvement committee—Thompson, DeGolyer, Huber.

On motion of Price the clerk was directed to draw orders for amounts due the retiring councilmen.

On motion of Thompson nominations for city attorney were called for and Miller placed John M. Lewis, Jr. in nomination. No other nominations were made. The first ballot showed five votes for Lewis, two for Wesner one for Wood, one for Arbuckle, one for Marshal. Thirteen ballots were cast. Lewis receiving five votes, all the republican councilmen voting for him, while the democrats scattered their votes between Wood, Wesner, Munden, Arbuckle and Branaman. No one receiving a majority of all the votes cast there was no election, which means that the present appointive officers, all of whom are republicans will hold over. After the 15th ballot council adjourned to meet in regular session, Thursday evening, May 19.

Many People Cannot Drink.

Coffee at night. It spoils their sleep. You can drink Grain-O when you please and sleep like a top. For Grain-O does not stimulate; it nourishes, cheers and feeds. Yet it looks and tastes like the best coffee. For nervous persons, young people and children Grain-O is the perfect Drink. Made from pure grains. Get a package from your grocer today. Try it in place of coffee. 15 and 25c.

What Wins.

One or two insertions of an advertisement seldom pay. It is consecutive, continuous, persistent efforts that win in advertising as in all other affairs of business. The twelfth advertisement carries part of the weight of the preceding eleven, and the fiftieth is worth ten times the first. The first is simply an introduction, and few people remember an introduction unless subsequent meetings serve to impress it upon them. Friendship ripens slowly and through constant association. This is true in social life, in business, in advertising.—Curtis Publishing Co.

Special Sunday Excursion to Indianapolis via Pennsylvania Lines.

May 8th, next Sunday 75 cent round trip excursion tickets will be sold to Indianapolis from Seymour for special train at 9:21 a. m. central time via Pennsylvania lines; returning leave Indianapolis 7 p. m. All day to see the capital city. Indiana National guard are encamped at Indianapolis.

The cheapest advertising is that which shows the largest percentage of return on the money invested. An advertisement that cost \$10,000 and made sales which showed a \$20,000 profit would be dirt cheap. An advertisement that cost a dollar and brought sales showing a profit of ninety cents would be the more costly advertisement of the two.—Curtis Publishing Company.

EXAMINATION BEGUN

Indiana Troops Will Soon be Mustered.

HOLLANDER'S VICTIM DEAD

Spanish Sympathizer Dies From the Effects of a Severe Beating at St. Anthony — Visited by a Snowstorm — Invalid For Thirty Years — Will Revist Alaska—Indiana Postmasters.

Indianapolis, May 6.—The work of examining the I. N. G., preparatory to mustering them into the United States service, began yesterday. Captain May hopes to be able to report to Washington tomorrow that the troops are ready to move, and it is expected that an order will immediately follow to send the men to Washington. The examination is rigid and there was a chattering of teeth when the men stripped in the cold rooms where the ordeal was gone through. As each man stepped from the examining room he was pined with questions, the principal one being "Did you pass?" So far comparatively few of the men have been sent aside.

PASSED EXAMINATION.

James Gray of Evansville Will Be a Senior Lieutenant in the Navy.

Evansville, Ind., May 6.—Washington advices say that James Gray of this city, who graduated from the Naval academy in the class of 1880, has passed a successful examination for senior lieutenant of the navy, and will return here to await orders. His rank will be the same as if he had continued in the service continuously. Mr. Gray was one of the first men from Indiana to offer his services to Secretary Long.

FATALLY WHIPPED.

Spanish Sympathizer Dies From the Effects of a Beating.

St. Anthony, Ind., May 6.—About two weeks ago a stranger, who was an ardent Spanish sympathizer, had a quarrel at St. Anthony with George Hollander, and Hollander gave him a hard beating from the effects of which he died yesterday. His name and home is not known. Hollander makes his headquarters at Ferdinand.

JAW TORN OFF.

Injuries of Anthony Muldoon by the Explosion of Giant Powder.

St. Croix, Ind., May 6.—Anthony Muldoon of this place was terribly injured by the accidental explosion of a bottle filled with giant powder. The man's eyes were destroyed, and one jaw was partially torn off.

Invalid For Thirty Years.

Lagrange, Ind., May 6.—Mrs. Elizabeth Keightley, mother of ex-Congressman Keightley of Michigan, is dead. She was born in England in 1817, and came with her parents to the United States in 1828. In 1835 she was married to Peter L. Keightley, and settled on the farm in Van Buren township, where she died. Mrs. Keightley had been an invalid for 30 years.

Will Revist Alaska.

Washington, May 6.—Walter Evans of Crawfordville, Ind., who is identified with the experimental bureau of the agricultural department, and who spent last summer in Alaska, making agricultural experiments, will return there this summer to continue the work. His headquarters will be at Sitka.

Indians, Ohio, and Illinois.

Beloit, Wis., May 6.—First place in the interstate collegiate oratorical contest here last night was given to William Gorsch of Knox College Ill.; second to J. A. Barnett, of Wooster University O., and third to Thomas W. Nadal of DePaul, Ind. Speakers from 10 states participated.

Was at the Battle of Manila.

Rainstown, Ind., May 5.—Leon Wilson, son of Captain James Wilson, living near here was at the battle of Manila. He is a member of the crew of the McCulloch and has been in the navy four years, two of which he served on board the Brooklyn.

Pastor Resigns.

Huntington, Ind., May 6.—Rev. Gorman Keeter, pastor of the German Baptist church here has resigned his place, and will locate at North Manchester. He will probably be succeeded by Rev. John Wright, of North Manchester.

Jumped in Front of a Train.

Shelbyville, Ky., May 6.—William Bockstruck, a tailor, jumped in front of a Southern railway train here and was almost instantly killed. He was about 65 years old and originally from Madison, Ind.

Visited by a Snowstorm.

South Bend, Ind., May 6.—A snowstorm visited this city yesterday and last night it turned very cold. Much damage to fruit is feared.

Indiana Postmasters.

Washington, May 6.—Indiana postmasters were appointed yesterday as follows: Magnolia, Annie Stensson; Belfast, James P. Starr.

How to Look Good.

Good looks are really more than a skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good alternative and tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peter's drug store. 50 cents a bottle.

Our Sister Republic.

Everything in Mexico is so radically different from what we find at home that the tourist is perpetually charmed as well as interested. Its civilization runs back to so many centuries and has left so many enduring monuments, its people are so quaint and picturesque, its scenery so bold and rugged, and its cities so novel in their phases of local life, that one never tires of sightseeing in this charming land. The City of Mexico itself, with its great cathedral, its many churches, its byways teaming with busy life and novel industries, its wonderful environs, the holy sepulchers to which the pilgrimages are made, its palaces, is well worth weeks of study, while many lesser cities are centers of peculiar interest. Thus Guanajuato its catacombs; Zacatecas, the great silver mining center; Guadalajara, the so-called Boston of Mexico and the center of its art life, and Durango, the great iron mining district. There are but a few of the more conspicuous points which the tourist makes stopping places on his journey. Any agent of the Southern Pacific road will take pleasure in giving the inquirer full information, or by writing to W. G. Niemeyer, Gen. Western Agent, Southern Pacific Co., 238 Clark St., Chicago, copies of the new pamphlet on Mexico, entitled "Vamos a Mexico," which the Southern Pacific has just issued, will send you if you inclose four cents in stamps.

Mexican Central Railway.

The only Through Standard Gauge Line between the United States and principal cities in Mexico.

Only line running Pullman Buffet drawing room sleeping cars between San Antonio and City of Mexico without change at the border.

Winona Lake, Indiana, (formerly Eagle Lake) is an attractive summer haven on the Pennsylvania Lines near Warsaw, Indiana. As the site of Winona Assembly and summer school, this resort has grown into popular favor very rapidly. Improvements made on the two hundred acres of romantic woodland which stretches nearly two miles along the eastern shore of Winona Lake, a beautiful sheet of water, include all the comforts and conveniences for a highly enjoyable sojourn. Ample facilities are at hand for satisfactory entertainment at reasonable rates at the commodious hotel which adjoins the railway station at the entrance to the grounds, in cozy cottages, or in tents as may be preferred.

Persons who may desire to combine devotion, entertainment and instruction with rest and recreation will find Winona Lake the ideal spot for invigorating both mind and body by instructive entertainment and study and health-giving recreation. The educational work of the summer school is in charge of well known instructors. The college halls are equipped with all required paraphernalia; the large auditorium in which the Assembly meets, and in which prominent lecturers are heard during the season, has a seating capacity of over 3,000. An amphitheatre, racetrack and other facilities for athletic pastimes are provided. The fishing bathing and boating are fine, the large fleet of boats being of the best.

The season of 1898 will open May 15th commencing on that date excursion tickets with fifteen day limit will be on sale via Pennsylvania Lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will begin June 1st and continue daily until September 30th. Season excursion tickets will be good returning until October 31st.

Full information about the attractions at "Beautiful Winona," its assembly and summer school, etc., will be cheerfully furnished all who address Mr. Sol C. Dickey, secretary, Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania lines or to P. How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good alterative and tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peter's drug store. 50 cents a bottle.

Everything in Mexico is so radically different from what we find at home that the tourist is perpetually charmed as well as interested. Its civilization runs back to so many centuries and has left so many enduring monuments, its people are so quaint and picturesque, its scenery so bold and rugged, and its cities so novel in their phases of local life, that one never tires of sightseeing in this charming land. The City of Mexico itself, with its great cathedral, its many churches, its byways teaming with busy life and novel industries, its wonderful environs, the holy sepulchers to which the pilgrimages are made, its palaces, is well worth week-end study, while many lesser cities are centers of peculiar interest. Thus Guanajuato its catacombs; Zatecas, the great silver mining center; Guadalajara, the so-called Boston of Mexico and the center of its art life, and Durango, the great iron mining district. There are but a few of the more conspicuous points which the tourist makes stopping places on his journey. Any agent of the Southern Pacific road will take pleasure in giving the inquirer full information, or by writing to W. G. Niemeyer, Gen. Western Agent, Southern Pacific Co., 238 Clark St., Chicago, copies of the new pamphlet on Mexico, entitled "Vamos A Mexico," which the Southern Pacific has just issued, will be sent you if you inclose four cents in stamps.

"Winnona Lake, Indiana," A Summer Resort.

Winnona Lake, Indiana, (formerly Eagle Lake) is an attractive summer haven on the Pennsylvania Lines near Warsaw, Indiana. As the site of Winnona Assembly and summer school, this resort has grown into popular favor very rapidly. Improvements made on the two hundred acres of romantic woodland which stretches nearly two miles along the eastern shore of Winnona Lake, a beautiful sheet of water, include all the comforts and conveniences for a highly enjoyable sojourn. Ample facilities are at hand for satisfactory entertainment at reasonable rates at the commodious hotel which adjoins the railway station at the entrance to the grounds, in cozy cottages, or in tents as may be preferred.

Persons who may desire to combine devotion, entertainment and instruction with rest and recreation will find Winnona Lake the ideal spot for invigorating both mind and body by instructive entertainment and study and health-giving recreation. The educational work of the summer school is in charge of well known instructors. The college halls are equipped with all required paraphernalia; the large auditorium in which the Assembly meets, and in which prominent lecturers are heard during the season, has a seating capacity of over 8,000. An amphitheatre, racetrack and other facilities for athletic pastimes are provided. The fishing bathing and boating are fine, the large fleet of boats being of the best.

The season of 1898 will open May 15th commencing on that date excursion tickets with fifteen day limit will be on sale via Pennsylvania Lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will begin June 1st and continue daily until September 30th. Season excursion tickets will be good returning until October 31st.

Full information about the attractions at "Beautiful Winnona," its assembly and summer school, etc., will be cheerfully furnished all who address Mr. Sol. C. Dickey, secretary, Winnona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania Lines or to F. Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

NO WORD RECEIVED

From Dewey, but Long Does Not Fear For His Safety.

ADMIRAL SAMPSON'S FLEET

News of Its Movement Not Given Out.

But Its Destination Is Believed to Be Porto Rico—Russian Diplomat Says Reports of Russia's Unfriendly Intent Is False. Spanish Troops Resist the Landing of Soldiers and Ammunition From the Leyden in Cuba—Indiana's Guard Being Examined by United States Army Surgeon at Camp Muncie.

Washington, May 6.—Secretary Long has received no word from Commodore Dewey, but feels no apprehension over the lack of news, because in the first place reports cannot be expected with the cable from Manila cut and, furthermore, no fears are entertained as to Commodore Dewey's ability to maintain his position. There was no doubt, the secretary said, that Commodore Dewey's fleet had annihilated the Spanish fleet and with this much accomplished Dewey was master of the situation at Manila. It was suggested to Mr. Long that the shore batteries at Cavite and on the Corrigador islands might be a serious menace to the American fleet, but the secretary did not share this view, holding that the strength of the Olympia and other ships in Dewey's command was ample to make him master of Manila bay and its surroundings.

Preparations for a suitable convey for the supply ships was indicated yesterday by the choice of a commander and officers for the cruiser Charleston, now at Mare Island. It is recalled at the navy department in this connection that having received the surrender of Manila, the commodore would be able to secure any quantity of labor, and of such material as any city like Manila affords, for the repair of his ships. He also would be able to place his wounded in comfort in some of the Manila hospitals or other public buildings. It is always a desire of a prudent naval commander to get his wounded ashore at the earliest possible opportunity, as they stand better chances of recovery.

Sampson Ironclads.

No news could be gleaned at the navy department relative to the movements of Admiral Sampson's ironclads but from the confident tone of the few officials who are acquainted with the policy of the department they are expecting to hear very soon of news from his squadron almost as interesting and important as that received from the Philippines last Monday. A high officer of the administration yesterday almost demolished the theory that Admiral Sampson was going to succor the Oregon, now on her way from Brazil to join the North Atlantic squadron. He declared that the navy department was under no apprehension about the Oregon for the reason that it did not consider that the Spanish admiral of the Cape Verde squadron would be willing to risk a combat with the Oregon even at the great odds in his favor as, even if overwhelmed in the end, the Oregon certainly would destroy one of the Spanish ships, and possibly two, and the Spanish government could not afford to exchange pawns at this stage of the war. That left open as possible the points of operation for Sampson as either Porto Rico or some port on the Cuban coast, but just which theory is

The young man who starts in business life with a good athletic training back of him will be able to stand more than the man who has not had the same advantage. Nevertheless, if he neglects his health, he is likely to fall a victim to some fatal malady like his less fortunate brother.

There is only one safe road for a man to tread in the matter of health. That is the road of eternal vigilance.

No man, no matter how strong he may be, can with impunity neglect the little ills and indispositions of life. These little disorders are what make the big ones. When a man suffers from headaches and loss of appetite, feels drowsy and dull during waking hours, cannot sleep at night and is nervous and shaky at all times, he is in a dangerous condition. If he long neglects his condition he will find himself a very sick man.

Dr. Pierce's Golden Medical Discovery is the best of all medicines for the many diseases that are caused by the impaired digestion and insufficient and improper nourishment. It creates a hearty, healthy appetite; it makes digestion and assimilation perfect; it invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and nerve tonic. It is the best of all medicines for nervous disorders and it cures 98 per cent. of all cases of consumption, if taken in its earlier stages, before the lungs are too far wasted. For chronic, bronchial, throat and nasal affections it is an unequalled remedy. An honest dealer will not suggest some inferior substitute.

Rev. C. M. Leonard, (P. O. Box 207), Quanaah, Hardeman Co., Texas, writes: "I write to say that during the late trouble between the States I became very ill. I was unable to get out of the open air at night, which produced slight hemorrhages and loss of voice from which I had suffered more or less for a number of years, until that God-send, 'Golden Medical Discovery,' given to the world by the inventive and scientific brain of Dr. R. V. Pierce, was obtained. After six bottles had been used the pains and aches in my lungs began to give way, and now I feel that, with a judicious course of life I may live many years. I thank God for giving to the world a man who has done so much for suffering hu-

to be accepted is not even hinted at by the departmental officials.

Brazil Is Neutral.

Notice has come to the state department from Brazil that that government has declared neutrality. There is now no cause to regret such action on the part of Brazil, for, however beneficial the delay has been to the United States in getting its warships safely along the Brazilian coast, the issue of the proclamation just now is likely to be still more beneficial in closing Brazilian ports to the Spanish flying squadron, if it should be headed in that direction. It may be noted, however, that while the first reports were received with little credit, the advices coming to the navy department late yesterday, though not conclusive, inclined the officers to the belief that the Spanish flying squadron really has turned back from Cape Verde to consolidate with the home squadron at Cadiz.

Great pressure is being brought to bear upon the war department to secure appointments to second lieutenancies authorized by the recently enacted Hull bill. The list of applicants include many bright young men, for the regulations require them to be under 30. Among them are former students at West Point, newspaper men and others with political influence back of them.

RUSSIA IS FRIENDLY.

Diplomat Deprecates Statement to the Contrary Sent From London.

Washington, May 6.—A leading Russian diplomat says that the cable report from London stating that Emperor Nicholas of Russia was much disturbed as to the ultimate destiny of the Philippines, and that some sort of immediate intervention was probable, was entirely unwarranted and placed Russia in a misleading position before the people of this country. He says the sentiment throughout Russia, official and unofficial, is one of extreme cordiality toward the United States, and it shows there will be no change in the traditional friendship existing between the United States and Russia. The friendly feeling, he pointed out, was shown by the Russian newspapers which arrived in the mail to the Russian embassy only yesterday. They were published just after the declaration of war, and their comment was without exception of the most friendly character toward the United States. He said this feeling prevailed to a marked extent, even among the peasantry of Russia, and it was a matter of surprise to him, under such circumstances, that reports should be circulated in the United States that Russia was about to assume an unfriendly attitude toward this country.

DESPERATE ENCOUNTER.

Spanish Troops Resist the Landing of Soldiers from the Leyden.

Key West, May 5.—The government tug Leyden, Captain J. H. Angus, steamed into port yesterday and told the following story of a desperate encounter with Spanish troops on the northern coast of Cuba. The Leyden left here Monday with a party of insurgents under General Baldomero Acosta and including five Cuban scouts under the leadership of Captain J. H. Dorst of the United States cavalry. The Leyden also carried a large quantity of arms and ammunition. The tug landed five men, with four boxes of ammunition and two horses. General Acosta also landed and penetrated to the interior, where he communicated with the forces of the insurgents. The Leyden lay to outside until morning, when observing a troop of Spanish infantry approaching, she put to sea and got safely away. The same night she proceeded to Matanzas and Tuesday landed another small party near there. Fearing attack by the Spaniards, she looked for the monitors Terror and Amphitrite, which are on the blockade in that vicinity, but, being unable to locate them, the Leyden returned to the original landing place, reaching there early Wednesday morning. Here she was met by Acosta and about 200 Cubans, half of whom were armed with rifles. They united with the men on the tug and an attempt was made to land the remaining arms and men, when a troop of 200 of the Villa Vicosca cavalry swooped down on them and a fierce engagement of a half hour duration followed. The Cubans finally drove the enemy driving them into the woods. During this engagement several rifle bullets went through the Leyden's smokestack, but no one was injured.

The plucky little tug then went in search of the flagship, found her lying near Havana and reported the story.

Rear Admiral Sampson sent the gunboat Wilmington back with the Leyden. When the two vessels reached the scene of the landing they found the Spanish cavalry in waiting to welcome another attempted invasion.

The Wilmington lost no time in preliminaries, but promptly opened fire on a number of small houses marking the entrance to the place. The gunboat fired four shots, which immediately drove back the Spaniards, and Captain Dorst, with the ammunition, landed safely, the Leyden returning here.

ORDERED TO TAMPA.

Twenty-Fifth Infantry to Be Sent With All Possible Speed.

Chickamauga National Park, May 6.—Orders have been received from the war department by General Brooke, commanding the provisional army corps at Chickamauga park, to dispatch the Twenty-fifth infantry (colored), Colonel Burt commanding, with all speed possible to Tampa, Fla. Two companies of this regiment are now at Dry Tortugas and it is believed that the destination of the remainder of the regiment is the same point. It is further believed that the regiment will shortly go to the front, as Colonel Burt, who has been named as a brigadier general in the volunteer army, is expected to go south with his command. It is the purpose to embark

Discretionary With the President.

Washington, May 6.—It is the understanding that the bill pending in congress providing for the enlistment of 10,000 "immunes" and a brigade of engineers will be modified so as to leave it discretionary with the president to recruit probably 15,000 men made up of such special classes as he may deem best for the service. "Immunes," signal corps, cowboy companies and artillery and other regiments. This course is regarded at the war department as better than that proposed in the bill in that it will enable the president to provide for obtaining such troops as he may think best.

Ammunition for Dewey.

Lima, O., May 6.—Three special cars loaded with fixed cartridges for the use of the Pacific squadrons rapid fire guns, and attached to the Wells, Fargo express train on the Chicago and Erie road, passed through this city last night. The cars are being rushed to San Francisco with all possible speed, and will be hurried on to Commodore Dewey's vessels.

Illinois Troops Mustered.

Springfield, Ills., May 6.—The First battalion, Fifth regiment, Illinois National Guard, was mustered into the federal service yesterday. Medical officers examined and accepted the Second battalion of the Fifth and the First battalion of the Third regiment. They will be mustered in today.

Munitions of War.

Davenport, Ia., May 6.—Eighteen carloads of munitions of war, including nearly 3,000,000 rounds of ammunition, were shipped to eastern and southern ports from the Rock Island arsenal yesterday.

Diseased Milk.

Columbus, O., May 6.—Five children of W. G. Shapter became violently ill after eating bread and milk. Physicians say the illness was caused by poison, due, it is supposed, to diseased milk.

THE MARKETS.

Most Remarkable Rise in Wheat in Many Years.

Chicago, May 6.—One dollar and fifty cents per bushel was the price of May wheat at the end of yesterday's session of the board of trade. This represents an advance in one day of 20 cents. The advance was the most remarkable in many years. Famine of grain abroad and enormous sales of American wheat to fill the empty granaries of Europe caused the advance here. Shorts were driven to cover and one small failure was announced.

THE QUEEN REGENT

Preparing to Flee From the Spanish Capital to Vienna.

ENGAGED APARTMENTS

Only Waiting For a Suitable Time to Arrive.

Spanish Battleship Pelayo and Cruisers Alfonso XIII, Patriota and Rapido Are Preparing With All Speed to Sail From Cadiz—El Liberal Takes a Gloomy View of the Situation—Bluff Telegram Sent to Madrid From Cuba and Porto Rico. Other War News.

London, May 6.—The Vienna correspondent of The Daily Telegraph says: "Apartments have been reserved at a hotel here for the Queen Regent of Spain in case she arrives before apartments have been prepared for her in her brother's palace."

"Telegrams from the Austrian ambassador at Madrid, Count Dubsky, indicate that the queen regent is only waiting for a suitable moment to quit Spain without detriment to the interests of her son."

A dispatch to The Daily Chronicle from Cadiz, dated Tuesday, says: "The battleship Pelayo and the cruiser Alfonso XIII have left their anchorage in the bay and gone to the dockyard. The cruisers Patriota and Rapido are preparing with all speed, and all are expected to sail together. Cadiz is overwhelmed by the news of the Philippine disaster, the lost crews numbering many Cadizians."

A dispatch to The Daily Chronicle from Kingston, Jamaica, says that in anticipation of an invasion, the Spanish troops are concentrating in seaports of Cuba and have abandoned the interior to the insurgents.

GLOOMY OUTLOOK.

El Heraldo Thinks the End Is Near at Hand.

Madrid, May 6.—El Liberal in a gloomy article which states the "Subterranean rumblings preceding social upheaval," are heard, declares that "the fate of the country cannot remain longer with the weak hands and worn out intellects of the men now governing the country."

It is alleged that the governments of Cuba and Porto Rico have cabled that there is "no need to fear a landing of American troops in those islands; that two ironclads, two cruisers and three transports will leave Cadiz forthwith to chase the Yankees from the Philippines and then bombard California ports."

In Cortes yesterday the minister of marine declined to give the whereabouts of the Cape Verde squadron.

NO NEW FACTS.

Belief in London That Dewey Has Not Effectual Possession of Manila.

London, May 6.—There are absolutely no new facts connected with the Hispano-American situation today from any source. The absence of news from Commodore Dewey causes a great deal of speculation, the balance of opinion inclining to the view that, while in no danger, he has not been able to get effectual possession of Manila.

The latest dispatches from Madrid say that the measures the cortes has adopted have had the effect of reducing the agitation in the provinces, but looking to the severe censorship, such optimism reports may well be doubted.

Battle in Havana Province.

Key West, May 6.—A dispatchboat has arrived here bringing intelligence of an engagement between Spanish and insurgent troops in Havana province, in which Colonel Juan Delgado, the insurgent leader, and four men were killed, and the Spanish lost 21. No further details are known, and even these are obtained from hearsay in Havana. Even the date of the engagement is not given, although it is understood to be of recent occurrence.

Robledo Wants an Income Tax.

Madrid, May 6.—The debate on the governments policy was resumed in the congress today, the sitting being mainly occupied with the continuation of Senator Romero y Robledo's speech. He severely criticised the government for its lack of foresight, and after putting various questions to members of the cabinet as to the government plans, he announced that he would ask the cortes to vote an income tax.

Senator Romero y Robledo asked why, after issuing from the bay, Admiral Montijo returned to Cavite. "Thus becoming a simple target for the enemy," Admiral Montijo, minister of marine, replied that Admiral Montijo acted entirely at his own discretion, no instructions having been sent him.

Without Ammunition.

London, May 6.—The Paris correspondent of The Daily Mail says: "I hear on indisputable authority that five of the Spanish warships, including the battleship Pelayo and the fine cruiser Alfonso XIII have not yet been supplied with ammunition. This was the cause of the delay in the sailing of the Cape Verde fleet and will probably compel it to return to Cadiz."

Colonial Congress.

Havana, May 6.—The colonial congress held its first session at noon yesterday. Former civil governor Jose Bruzon was elected president of the senate and Senator Jose Manuel Del Cuzo president of the lower house.

TWO DIVISIONS.

Sampson's Fleet Will Be Divided—Commodore Watson.

Key West, May 6.—A naval officer of high rank told a correspondent of the press last night that the division of Admiral Sampson's squadron, already indicated from Washington, will, in all probability go into effect forthwith. Commodore Watson will raise his flag on the cruiser Cincinnati and his command will include other cruisers and gunboats.

Commodore Remy, who will command the other division of the fleet, Rear Admiral Sampson being commander of both divisions, is expected here in a few days.

The conditions of the Havana blockade remain unchanged, the line being rigidly kept by the Montgomery and other cruisers under Captain Converse, who is still in temporary command.

Ignorant of Events.

Delaware Breakwater, Del., May 6.—The Spanish bark San Ignacio de Loyola, from Pasades, Bay of Biscay, for Philadelphia, has arrived here. The bark left Pasades on Feb. 15, the day of the Maine explosion, and her captain and crew were ignorant of the momentous events involving their mother country, which have since transpired. The ship will proceed to Philadelphia.

Supplies For Insurgents.

New York, May 6.—Military supplies for the Cuban insurgents from the New York arsenal are piled on the wharf at Governor's Island ready for immediate shipment. The supplies consist of 5,000 Springfield rifles, 100,000 cartridges, 200,000 revolver cartridges and 100 dozen machetes.

Executing Duties of Governor General.

Boston, May 6.—The following telegram, received by F. T. Viles of this city from a friend in Singapore, was read at a banquet of the Electric Club: SINGAPORE, May 5.

Reliable information received here corroborating news of Dewey's victory at Manila, and he is now executing the duties of governor general there.

Ohio and Kentucky Troops.

Cincinnati, O., May 6.—Battery B of the Ohio National Guard which will be known hereafter as troop H, Ohio cavalry, left yesterday for Camp Bushnell at Columbus. The militia at Newport and Covington go to Lexington today.

SENOR DUBOSC.

Makes a Vicious Attack on American People in a Lecture.

Toronto, May 6.—Senator DuBosc, late first secretary of the Spanish legation at Washington, lectured to 2,000 people here on the causes of the present war. The lecture was in aid of the Red Cross society work and was delivered in a private capacity.

The senator made a severe attack on the American people as he traced the history of the trouble, reiterating the Spanish arguments and spoke of American senators as "Border ruffians, whose illiterate boorishness is only equalled by their venality and ludicrously pompous conceit."

He urged that American cupidity for conquest constituted a grave danger to Europe, Canada and Mexico, and concluded by comparing the Queen Regent of Spain with "the bloated politicians, whose countenances depict the lust that is in their hearts."

BARON ARRESTED.

Stole 67,000 Florins From His Aunt and Confesses.

New York, May 6.—The steamer Fulda's passenger, who shipped as Edward Gruen and who is really Baron Unterrichter, has confessed to the immigration authorities that he stole the 67,000 florins, of which theft he was accused yesterday, and for which he has been detained. The prisoner says he is the son of a Jewish Rabbi. The prisoner will be detained aboard the Fulda and will probably be deported. He stole the money from an aunt in Tyrol.

Postoffice Appropriations Bill.

Washington, May 6.—During almost the entire session yesterday the senate had under consideration the postoffice appropriation bill. The measure carries \$20,224,300. The most important action taken upon the measure was the adoption of an amendment reducing the number of deliveries of mail in all cities of the country to not exceeding four each day. The bill carries no appropriation for free rural delivery. Star route contractors are prohibited from subletting their contracts. In order to get their money they must be able to swear that they performed the service themselves.

MONTHLY SUFFERING.

Thousands of women are troubled at monthly intervals with pains in the head, back, breasts, shoulders, sides, hips and limbs. But they need not suffer.

These pains are symptoms of dangerous derangements that can be corrected. The menstrual function should operate painlessly.

McELEE'S Wine of Cardui

makes menstruation painless, and regular. It puts the delicate menstrual organs in condition to do their work properly. And that stops all this pain. Why will any woman suffer month after month when Wine of Cardui will relieve her? It costs \$1.00 at the drug store. Why don't you get a bottle to-day?

For advice, in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. ROZENA LEWIS,

of Denham, Texas, says:

"I was troubled at monthly intervals with terrible pains in my head and back, but have been entirely relieved by Wine of Cardui."

A NATIONAL RESERVE.

The plan for a "National Volunteer Reserve," about which the REPUBLICAN has previously had something to say, is commended by Major-General O. O. Howard. He says:

"I think the plan excellent. An unarmed reserve of such large proportion will have a conservative effect in its influence abroad and prevent panics at home. There will result nothing of especially a military or warlike character, but simply the order and comradeship which will bind men together and increase their efforts to preserve a perpetual peace. But should our cities and towns be exposed to destruction by any foe, or the life of our beloved country be threatened, these quotas would be raised and offered to our administration without uncertainty or delay. The proposal as I understand it is an admirable one."

Sixty days ago Commodore Dewey was unknown to a majority of his countrymen. His name does not appear in any encyclopedia or biographical history. Today he ranks with Nelson, Farragut or Paul Jones. Thus it is that when the opportunity presents itself great Americans are revealed.

PRESIDENT McKINLEY's plan for the prosecution of the war against Spain is being revealed from day to day as events follow each other in rapid succession. A few weeks ago when many were impatient at what they termed inaction, the president was planning for vigorous action. Supplies were sent to Dewey with instructions to take possession of the Philippines, which has already been done. Now it seems that Porto Rico is next to be taken. While some politicians have complained that the administration was too slow, the fact is that in no previous war has so much been accomplished in so short a time.

How News Comes From Manila.

Before communications were cut between Manila and Hong Kong a message from Manila was sent by a telegraph line 100 miles to Cape Bolinao, thence by a cable 529 miles long to Hong Kong, thence down the China sea over a 460-mile cable to Saigon in Cochinchina. By another cable 630 miles long the message reached Singapore, which is located on the straits. From Singapore the message traveled over a cable that runs around the Malay peninsula to the island of Penang, which is on the western coast of Lower Siam, a distance of 388 miles. From Penang to Madras the message traveled on another submarine cable 1498 miles long. At Madras the message reached the first land telegraph line after leaving the island of Luzon, of which Manila is the capital. From Madras it went overland 800 miles and was again put on a cable to cross the Arabian sea to Aden, which is located on the Gulf of Aden, another jump of 1,851 miles; then it traveled over another submarine cable of 1,403 miles through the Red sea to Suez and then on an overhead wire 200 miles to Alexandria. From Alexandria over a 912 mile cable it reached the Island of Malta, thence 1,126 miles by cable to Gibraltar. From Gibraltar to Carcayellos, near Lisbon, the capital of Portugal, it traveled on a 337-mile cable and thence by an 850-mile ocean cable it reached the cable station at Land's End, England. From Land's End the message has the choice of eleven ocean cables to reach Dover bay, near Canis, Nova Scotia, 2,531 miles. There the message was again repeated over the coast cable to New York, 888 miles. From New York it could take any one of a multitude of routes to Seymour the total distance traveled being not less than 15,000 miles.

At every one of the points named in the foregoing the message had to be repeated. The only possible way now, however, by which the circuitous route for a message can be begun is for it to be carried from Manila in a steam vessel to Hong Kong and it is on this slow transmission of the important intelligence the civilized world now waits with bated breath.

Commissioners' Court.

The board of commissioners met in special session Wednesday all members present.

A petition to gravel about five miles more of the roads in Jackson township was presented, and the board appointed George Slagel as engineer and Jacob Baldwin and Calvin Davis as viewers to view and report on the same at their regular June term 1898.

The auditor was directed to have struck \$16,000 worth of gravel road bonds for the payment of the Brown-town gravel roads.

The Clearspring and Freetown gravel road was received of the contractor, L. P. Byrne, and made a part of the free gravel road system of the county.

The board set Wednesday June 8th, 1898, as the day for letting the contract for the construction of the gravel roads in Hamilton township, and also the Seymour and Dudleytown gravel road in Jackson and Washington townships. There will be about fifty miles in all.

Jas. W. Wayman, engineer, and Martin Kober, a viewer on the Owen township gravel roads came before the board and asked to be relieved from above roads, and the board appointed Wm. Carr as engineer and Elisha Sewell in their places.

A GREAT SCHEME

Why not make your dollars out of rubber? That's a great scheme. Then they'll stretch. It's a pretty hard matter to make a five dollar bill stretch over a ten dollar purchase, and even we can't do that for you—but yet, until rubber dollars are made, we'll come nearer to it than any store you know of. We'll stretch \$5.48 so it will cover a splendid \$7.00 suit. We stretch \$6.98 over a fancy all wool cassimere suit that ought to cost \$9.00. We stretch \$7.98 over suits that are worth \$10.00 to \$11.00. We stretch \$8.98 over suits that ought to sell at \$11.00. We stretch \$9.98 so it will cover a \$12.25 shirt with two collars and cuffs.

Bring your dollars to us if you want them stretched. You'll think it's rubber.

P. A. Bonebrake, superintendent of the Louisville division of the Pennsylvania lines, states that the damages from the floods of a few weeks ago have practically been overcome. The track rides as smoothly as ever, but in some places the roadbed looks ragged and the fences are down, but a few days will overcome all trouble on that source.

Eleven thousand tons of new heavy steel rail is now being placed in the track, and within sixty days Mr. Bonebrake says there will be no better 110 miles of track in the west than that of the J. M. & I. between Indianapolis and Louisville.

The State Normal school trustees have directed that hereafter all applicants must hold diplomas from commissioned high schools or colleges, or have a three years' license. The board also decided to make gymnasium work compulsory.

Whooping Cough.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgettstown, Pa. For sale by C. W. Milhouse.

Many old soldiers now feel the effects of the hard service they endured during the war. Mr. Geo. S. Anderson, of Rossville, York county, Penn., who saw the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack lately," he says "and procured a bottle of Chamberlain's Pain Balm. It did so much good that I would like to know what you would charge me for one dozen bottles." Mr. Anderson wanted it both for his own use and to supply it to his friends and neighbors, as every family should have a bottle of it in their home, not only for rheumatism, but lumbago, sprains, swellings, cuts, bruises and burns, for which it is unequalled for sale by C. W. Milhouse.

FRENCH LINER TAKEN.

DOUBTFUL STORY ABOUT DEWEY
BEING ENTRAPPED.

England Again Refuses to Intervene to
End the War.

Special Dispatch to the REPUBLICAN
Key West, May 6. (3.30 p. m.)—
The Annapolis which is engaged in
blockading the harbor at Havana to-
day captured the French liner, Lafay-
ette while she was trying to run the
blockade of Havana.

The Lafayette had been repeatedly
warned by the blockading squadron
not to attempt to enter the harbor, but
paid no attention to the warning.

Sampson's Fleet Sighted,

KINGSTON, Jamaica, May 6. (3.45 p. m.)
Four United States war ships have been
sighted off Porto de Bares, Cuba. They
are supposed to be a part of Rear Ad-
miral Sampson's fleet.

England Refuses to Intervene.

WASHINGTON, May 6.—Certain Euro-
pean powers have again made overtures
to Great Britain to intervene in the
American-Spanish war and Great Brit-
ain again refuses to do so, thus showing
her friendship for the United States.

War Ships for Philippines

MANILA, May 6. (4 p. m.)—It is re-
ported that the government has de-
cided to dispatch immediately from
Cádiz two iron clads, two cruisers and
three transport ships to drive the
Americans out of the Philippines and
then bombard California ports.

A Doubtful Story.

LONDON, May 6.—The Spanish author-
ities are intimating that Commodore
Dewey has been entrapped by Spanish
gunboats which were kept concealed
outside the harbor. It is believed how-
ever, that the Spaniards are only trying
to make as much as possible out of the
absence of news from the American
fleet.

There are indications that Rear Ad-
miral Sampson may attack the Canary
island.

Buenos Ayres, May 6.—The Spanish
torpedo gunboat has sailed for some
unknown destination.

Mrs. Delia M. Jones, Granville, N. Y.,
writes: "I have the highest praise
to give to Dr. Bull's cough Syrup. We
have used it in our family for five years
with the best effects."

CITY COUNCIL.

Last Business of The Old Council And The
First of The New.

The city council met in regular ses-
sion last night with the mayor in the
chair and all councilmen in their
places.

Minutes of previous meeting read
and approved. Also minutes of special
meeting, April 30, called to select an
election inspector in place of Frank
Woodmansee, resigned, were read and
approved.

Goodale of fire department com-
mittee recommended some repairs on
the stove in the council chamber. So
ordered.

Mr. Goodale recommended that the
new committee make a careful exam-
ination of the fire department equip-
ment at once.

Burkley, chairman of the committee
on public schools, made a report of
what had been observed in the several
departments of the public schools on
visitation day, all of which was highly
complimentary to the educational
work being done in the Seymour public
schools.

Schwing of the grade committee re-
ported that it was the unanimous op-
inion of this committee that McDonald
street be opened and that the same be
referred to the city commissioners.
Laid on the table for the action of the
new council.

Goodale of the improvement com-
mittee reported that he had talked
with J. H. Peters about the proposed
ditch to drain the west end of seventh
street, but was unable to reach an
agreement with Mr. Peters, through
whose land the ditch would extend.

City Attorney Marshall reported that
the claim presented by John McDon-
ald for rebate of assessment on North
Vine street was not a valid claim.

The city engineer submitted plans
and specifications and specifications
and probable cost of proposed ditch
from the west end of 7th street.

Street commissioner reported that all
the alleys throughout the city had
been cleaned as directed by the coun-
cil.

Dr. Graessle's resignation as health
officer was read and accepted.

Claims to the amount of \$736.05
were allowed.

Burkley presented a resolution re-
solving repealing the ordinance for a
tile drain in the alley between Second
and Third street west from Blish st
intersecting the Branch street sewer.

A resolution was adopted unanimo-
usly complimenting the services rendered
the city by the retiring members of the
council.

The ordinance introduced by Berg-
doll repealing ordinance No. 496 pro-
viding for an accounting stamp was
read the second time, advanced and
adopted.

Old Council adjourned and the new-
ly elected councilman were introduced
by their predecessors. After roll call
the rules governing the old council
were adopted.

The recommendations of the grade
committee for the opening of McDon-
ald street were adopted.

The mayor announced the following
standing committee:

Judiciary—Shields, DeGolyer, Price,
Finance—Miller, Huber, Shepard,
Accounts, claims, printing—Shepard,
Binder, Gibson.

Fire department—Miller, Gibson,
Shields.

Water works—Price, Bretthauer,
Thompson.

Public schools—Huber, Thompson,
Shepard.

Grade committee—DeGolyer, Shields,
Miller, Bretthauer.

Light committee—Bretthauer, Bin-
der, Gibson.

Improvement committee—Thomp-
son, DeGolyer, Huber.

On motion of Price the clerk was
directed to draw orders for amounts
due the retiring councilmen.

On motion of Thompson nominations
for city attorney were called for and
Miller placed John M. Lewis, Jr. in
nomination. No other nominations
were made. The first ballot showed
five votes for Lewis, two for Wesner
one for Wood, one for Arbuckle, one
for Marshall. Thirteen ballots were
cast. Lewis receiving five votes, all the
republican councilmen voting for him,
while the democrats scattered their
votes between Wood, Wesner, Munden,
Arbuckle and Branaman. No one re-

Facts About Flashlights.

A few years ago it was not generally
known that photographs could be taken
successfully by means of artificial light,
but now it is an important branch of a
progressive photographic business.

Many people, however have the mis-
taken idea that photographs by flash-
light can only be taken at night when
all the lights are out.

With the improved apparatus now in
use the artist can successfully photo-
graph family reunions and groups at
home, parties of the little people, wed-
dings and banquets and in fact any-
thing, anywhere and at anytime.

Seymour is fortunate in having a gal-
lery equipped for such work. Frank
Cloud, the photographer, is prepared to
do flashlight work at all times and his
work is always guaranteed to give en-
tire satisfaction.

What Wins.

One or two insertions of an advertisement seldom pay. It is consecutive, continuous, persistent efforts that win in advertising as in all other affairs of business. The twelfth advertisement carries part of the weight of the preceding eleven, and the fiftieth is worth ten times the first. The first is simply an introduction, and few people remember an introduction unless subsequent meetings serve to impress it upon them. Friendship ripens slowly and through constant association. This is true in social life, in business, in advertising.—Curtis Publishing Co.

Special Sunday Excursion to Indianapolis via Pennsylvania Lines.

May 8th, next Sunday 75 cent round trip excursion tickets will be sold to Indianapolis from Seymour for special train at 9:21 a. m. central time via Pennsylvania lines; returning leave Indianapolis 7 p. m. All day to see the capital city. Indiana National guard are encamped at Indianapolis.

The cheapest advertising is that which shows the largest percentage of return on the money invested. An advertisement that cost \$10,000 and made sales which showed a \$20,000 profit would be dirt cheap. An advertisement that cost a dollar and brought sales showing a profit of ninety cents would be the more costly advertisement of the two.—Curtis Publishing Company.

EXAMINATION BEGUN

Indiana Troops Will Soon be Mustered.

HOLLANDER'S VICTIM DEAD

Spanish Sympathizer Dies From the Effects of a Severe Beating at St. Anthony—Visited by a Snowstorm—Invalid For Thirty Years—Will Revist Alaska—Indiana Postmasters.

Indianapolis, May 6.—The work of examining the I. N. G., preparatory to mustering them into the United States service, began yesterday. Captain May hopes to be able to report to Washington tomorrow that the troops are ready to move, and it is expected that an order will immediately follow to send the men to Washington. The examination is rigid and there was a chattering of teeth when the men stripped in the cold rooms where the ordeal was gone through. As each man stepped from the examining room he was pried with questions, the principal one being "Did you pass?" So far comparatively few of the men have been set aside.

PASSED EXAMINATION.

James Gray of Evansville Will Be a Senior Lieutenant in the Navy.

Evansville, Ind., May 6.—Washington advices say that James Gray of this city, who graduated from the Naval academy in the class of 1880, has passed a successful examination for senior lieutenant of the navy, and will return here to await orders. His rank will be the same as if he had continued in the service continuously. Mr. Gray was one of the first men from Indiana to offer his services to Secretary Long.

FATALLY WHIPPED.

Spanish Sympathizer Dies From the Effects of a Beating.

St. Anthony, Ind., May 6.—About two weeks ago a stranger, who was an ardent Spanish sympathizer, had a quarrel at St. Anthony with George Hollander, and Hollander gave him a hard beating from the effects of which he died yesterday. His name and home is not known. Hollander makes his headquarters at Ferdinand.

JAW TORN OFF.

Injuries of Anthony Muldoon by the Explosion of a Powder.

St. Croix, Ind., May 6.—Anthony Muldoon of this place was terribly injured by the accidental explosion of a bottle filled with giant powder. The man's eyes were destroyed, and one jaw was partially torn off.

Invalid For Thirty Years.

Lagrange, Ind., May 6.—Elizabeth Keightley, mother of ex-Congressman Keightley of Michigan, is dead. She was born in England in 1817, and came with her parents to the United States in 1828. In 1835 she was married to Peter L. Keightley, and settled on the farm in Van Buren township, where she died. Mrs. Keightley had been an invalid for 30 years.

Will Revist Alaska.

Washington, May 6.—Walter Evans of Crawfordville, Ind., who is identified with the experimental bureau of the agricultural department, and who spent last summer in Alaska, making agricultural experiments, will return there this summer to continue the work. His headquarters will be at Sitka.

Indiana, Ohio, and Illinois.

Beloit, Wis., May 6.—First place in the interstate collegiate oratorical contest here last night was given to William Gorsuch of Knox College, Ill.; second to J. A. Barnett, of Wooster University, O., and third to Thomas W. Nadal of Depauw, Ind. Speakers from 10 states participated.

Was at the Battle of Manila.

Rainstown, Ind., May 5.—Leon Wilson, son of Captain James Wilson, living near here was at the battle of Manila. He is a member of the crew of the McCulloch and has been in the navy four years, two of which he served on board the Brooklyn.

Pastor Resigns.

Huntington, Ind., May 6.—Rev. Gorman Keeter, pastor of the German Baptist church here has resigned his place, and will locate at North Manchester. He will probably be succeeded by Rev. John Wright, of North Manchester.

Jumped in Front of a Train.

Shelbyville, Ky., May 6.—William Bookstuck, a tailor, jumped in from of a Southern railway train here and was almost instantly killed. He was about 65 years old and originally from Madison, Ind.

Visited by a Snowstorm.

South Bend, Ind., May 6.—A snowstorm visited this city yesterday and last night it turned very cold. Much damage to fruit is feared.

Indiana Postmasters.

Washington, May 6.—Indiana postmasters were appointed yesterday as follows: Magnolia, Annie Stensson; Belfast, James P. Starr.

How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good alterative and tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peter's drug store. 50 cents a bottle.

Our Sister Republic.

Everything in Mexico is so radically different from what we find at home that the tourist is perpetually charmed as well as interested. Its civilization runs back to so many centuries and has left so many enduring monuments, its people are so quaint and picturesque, its scenery so bold and rugged, and its cities so novel in their phases of local life, that one never tires of sightseeing in this charming land. The City of Mexico itself, with its great cathedral, its many churches, its byways teaming with busy life and novel industries, its wonderful environs, the holy sepulchers to which the pilgrimages are made, its palaces, its well worn week-end study, while many lesser cities are centers of peculiar interest. Thus Guanajuato its catacombs; Zecotcas, the great silver mining center; Guadalajara, the so-called Boston of Mexico and the center of its art life, and Durango, the great iron mining district. The are but a few of the more conspicuous points which the tourist makes stopping places on his journey. Any agent of the Southern Pacific road will take pleasure in giving the inquirer full information, or by writing to W. G. Niemeyer, Gen. Western Agent, Southern Pacific Co., 238 Clark St., Chicago, copies of the new pamphlet on Mexico, entitled "Vamos a Mexico," which the Southern Pacific has just issued, will be sent you if you inclose four cents in stamps.

Mexican Central Railway.

The Only Through Standard Gauge Line between the United States and principal cities in Mexico.

Only line running Pullman Buffet drawing room sleeping cars between San Antonio and City of Mexico without change at the border.

Only line offering choice of three routes to and from Mexico, namely: Via El Paso, via San Antonio through Eagle Pass and Torreon, and via Tampico, from which port connections are made with steamship lines to and from New Orleans, Mobile, New York and European ports.

Lowest current rates of freight are made on shipments of household goods, emigrant outfits, agricultural implements, supplies, etc., from any point in the United States to points in Mexico. Shipments should be routed in care of T. Woodside, Customs Agent, at El Paso, Texas, who will arrange for importing same through the Mexican Customs House.

Winona Lake, Indiana, (formerly Eagle Lake) is an attractive summer haven on the Pennsylvania Lines near Warsaw, Indiana.

As the site of Winona Assembly and summer school, this resort has grown into popular favor very rapidly. Improvements made on the two hundred acres of romantic woodland which stretches nearly two miles along the eastern shore of Winona Lake, a beautiful sheet of water, include all the comforts and conveniences for a highly enjoyable sojourn. Ample facilities are at hand for satisfactory entertainment at reasonable rates at the commodious hotel which adjoins the railway station at the entrance to the grounds, in cozy cottages, or in tents as may be preferred.

Persons who may desire to combine devotion, entertainment and instruction with rest and recreating will find Winona Lake the ideal spot for invigorating both mind and body by instructive entertainment and study and health-giving recreation. The educational work of the summer school is in charge of well known instructors. The college halls are equipped with all required paraphernalia; the large auditorium in which the Assembly meets, and in which prominent lecturers are heard during the season, has a seating capacity of over 3,000. An amphitheatre, racetrack and other facilities for athletic pastimes are provided. The fishing, bathing and boating are fine, the large fleet of boats being of the best.

The season of 1898 will open May 15th commencing on that date excursion tickets with fifteen day limit will be on sale via Pennsylvania Lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will begin June 1st and continue daily until September 30th. Season excursion tickets will be good returning until October 31st.

Full information about the attractions at "Beautiful Winona," its assembly and summer school, etc., will be cheerfully furnished all who address Mr. Sol. C. Dickey, secretary, Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania lines or to F.
